Museum of Arts and Design

Location: 2 Columbus Circle, New York City

Architect: Allied Works Architecture
Owner: The Museum of Arts and Design
Year of completion: 2008
Climate: Humid Subtropical Climate
Material of interest: Custom-glazed terra-cotta tiles
Application: Rain screen facade
Properties of material: The terracotta material provides a ventilated and pressure-equalized enclosure that helps keep the building dry to reduce maintenance while also saving energy.
Manufacturer/fabricator: manufacturer: NBK
