Mobius House

Location: Het Gooi, Holland

Architect: Ber van Berkel, UN Studio
Owner: Private Owner
Year of completion: 1997
Climate: Marine West Coast
Material of interest: Concrete
Application: Exterior

Properties of material: Concrete and glass are used together and both materials move together and exchange positions throughout the project. The use of these materials allows the project to blend into its landscape, as well and blur the lines between interior and exterior spaces.
