Windsor Police Department

Location: Windsor, Colorado, United States

Architect: Roth Sheppard Architects

Owner: N/A

Building Type: Institutional

Year of completion: 2010

Climate: Tropical and Subtropical Steppe Climate

Material of interest: metal

Application: Roof and Exterior Façade

Properties of material: It is composed of two sloped metal structures that contain separate programs within the police department. A pre-engineered metal building is the location of “nonessential” storage and support, while the “essential” operations and offices are held within a metal building with an eye-catching transparent lobby and masonry base.
