RECENT DEVELOPMENTS IN THE LAW OF STATE TAXATION OF INSTRUMENTALITIES OF THE FEDERAL GOVERNMENT

The problem of the proper scope of the Constitutional doctrine prohibiting the States from taxing instrumentalities of the Federal Government is one which has caused sharp legal debate from the foundation of the United States. Chief Justice Marshall attempted to settle it once and for all in his celebrated decision in McCulloch v. Maryland, 1 which is a short treatise on the general political theories he thought were involved, rather than an opinion on the particular facts of the case. Yet, the correct application of the principle is still being disputed and the justices of the Supreme Court of the United States frequently are unable to agree. In order to understand the present scope and philosophic basis of the doctrine, it is necessary to appreciate exactly how far the Courts have gone in the several distinct fields to which it applies.
