Olin Library

St. Louis, Missouri

July 2008

Introduction to the Collection

The *Whitney R. Harris Third Reich Collection* is a comprehensive collection on Germany from 1933 to 1945. It began in 1980 with a donation of funds, books, and documents from Whitney R. Harris, who played a key role in prosecuting Nazi war criminals during the Nuremberg trials in 1945-1946. His book *Tyranny on Trial* is recognized as the first significant study of Nuremberg and its legacy.

The collection, which has grown to over 1,600 items in both English and German, includes non-fiction and fiction on all aspects of the Third Reich. It also includes transcripts of the trials. The majority of the collection resides on Level 2 of Olin Library in the Harris Reading Room, named in honor of Whitney and Jane Harris in recognition of their gifts to the University Libraries. Older materials are shelved in the general stacks.

This volume contains a bibliography and a subject index of 874 titles added between 1999 and June 30, 2008.

BIBLIOGRAPHY

1. *Beschweigen Und Bekennen : Die Deutsche Nachkriegsgesellschaft Und Der Holocaust*. Dachauer Symposien Zur Zeitgeschichte ; Bd. 1. Göttingen: Wallstein, 2001.

CALL NUMBER: DD247.H5 A8125 2005

14. Aly, Götz and Susanne Heim. *Architects of Annihilation : Auschwitz and the Logic of Destruction*. Trans. by A.G Blunden. Princeton, NJ: Princeton University Press, 2002. Originally published as: *Vordenker der Vernichtung*.
SUMMARY: "For Hitler' thinkers - the young and career-minded demographers, geographers, economists, civil servants and academics in the service of the Third Reich - Europe was a drawing board on which to work out their grand designs. They were encouraged to rationalise production methods, standardise products, introduce an international division of labour, and modernise and simplify social structures. Ultimately this would lead to the sinister 'adjusting' of the ratio between what were perceived as 'productive' and 'unproductive' population groups. Architects of Annihilation is an investigation into the records left by these thinkers, tracing the period from the Crystal Night Pogrom of 1938 to the fully operating gas chambers in Auschwitz, 1942. During this time, the unthinkable technocratic solutions to the problems of an expanding wartime Germany were nevertheless thought and implemented."--BOOK JACKET.
CALL NUMBER: D804.G4 A6713 2002

15. Ambrose, Tom. *Hitler's Loss : What Britain and America Gained from Europe's Cultural Exiles*. London ; Chester Springs, PA; London; Chester Springs, PA: Peter Owen; In association with the European Jewish Publication Society; Distributed in the USA by Dufour Editions, 2001.
SUMMARY: "When the Nazis came to power in 1933 they drove many of the world's greatest artists, musicians, film-makers, writers and scientists out of Germany. Throughout Nazi-controlled Europe modern culture was swept away and a new system of political correctness inspired by a mythical past was imposed. Hitler's Loss tells the story of the escape from danger and oppression of many major figures in the arts and sciences - mainly, but not exclusively, Jews - and introduces an unlikely hero, the American Varian Fry, who saved more endangered Jews and dissidents from certain death than the better-known Oskar Schindler. No other emigrant group in history was so talented, highly educated and influential. Hitler's Loss not only celebrates their achievements but shows how their professional approach to the arts and sciences changed British and American cultural life forever. Hitler's loss was truly Britain's and the USA's gain."--BOOK JACKET.

26. Axell, Albert. *Marshal Zhukov : The Man Who Beat Hitler*. London ; New York: Pearson Longman, 2003.
SUMMARY: "Georgi Zhukov was a great general in the most devastating war in history. General Eisenhower said the world owed a greater debt to Zhukov than to any other military figure for the victory over Nazi Germany. A jealous Stalin viewed him differently. Despite all Zhukov's war-time achievements and decorations, on his return from the Eastern front he was declared a non-person, and sent on futile appointments far away from Moscow. Russia's greatest modern hero was neglected by the media, his huge role in the victory over Hitler's Germany was slighted by official histories and his memoirs were censored. Zhukov's leadership on the field was shown in such epic battles as Moscow, Leningrad, Stalingrad, Kursk and Berlin. Marshal Zhukov: The Man Who Beat Hitler goes beyond the battlefield to tell the remarkable story of one of the most important and influential - yet often forgotten - figures of the Second World War."--BOOK JACKET.

27. Aycoberry, Pierre. *The Social History of the Third Reich, 1933-1945*. Trans. by Janet Lloyd. New York: New Press : Distributed by W.W. Norton, 1999.
SUMMARY: "This book presents the whole of the social spectrum in German society, from the elites to the middle class to the workers, in which the Nazi party was never a separate element but an inextricable part of the increasingly politicized social reality of Germany during the 1930s and 1940s. Issues of anti-Semitism and race are of course paramount, but The Social History of the Third Reich pays close attention to the roles that economics and class also played in shaping the Germany of the Third Reich. Aycoberry presents the stories of collaboration and complicity of German citizens as well as those of violence and repression."--BOOK JACKET. Originally published

38. Barnes, James J. and Patience P. Barnes. *Nazis in Pre-War London, 1930-1939 : The Fate and Role of German Party Members and British Sympathizers*. Brighton England ; Portland, Or: Sussex Academic Press, 2005.
SUMMARY: "This book seeks to answer a number of questions concerning the activities of Nazi Germans in London prior to World War II: who were they? What were they doing in London? How many of them were there, and how long did they stay? Were they mostly professional espionage agents, or simply Germans living and working in Britain? Once war broke out, were they interned or expelled? Previously unpublished German documents reveal the fate of German diplomats, journalists, and professionals, many of whom were interned in Britain or deported to Nazi Germany following the outbreak of war on 3 September 1939. Nazis in Pre-War London is the first book to study the history of the Nazis in Britain. An Appendix provides occupation and personal information of the more than 400 German Party members who were in London before Hitler unleashed the Second World War."--BOOK JACKET.

46. Beck, Alfred M. *Hitler's Ambivalent Attaché : Lt. Gen. Friedrich Von Boetticher in America, 1933-1941*. 1st ed. Washington, D.C: Potomac Books, 2005.

SUMMARY: "Friedrich von Boetticher was Germany's only military attache accredited to the United States between the world wars. As such, he was Germany's official military observer in the capital of the nation whose potential as an ally of those powers arrayed against Adolf Hitler in the 1930s might have given the dictator pause in any predatory plans he harbored against his neighbors. Though von Boetticher produced a rich and detailed commentary on military and political affairs in Washington in the eight years prior to the outbreak of war between Germany and the United States in 1941, he was nonetheless accused after the war of misjudging America's productive potential and misleading Hitler with overly optimistic reports. As Alfred M. Beck observes, what he actually told German authorities in Berlin is strikingly different from what his detractors later claimed. A loyal German, von Boetticher had strong ties to America. His mother was American-born, he spoke English fluently, and he was enamored of American military history. He was also anti-Semitic and believed that "Jewish wire-pullers" had undue influence over the U.S. government and its policies. His professional ties to U.S. Army officers in the War Department were so strong - supplying them, for example, with details on German air strength and operations during the Battle of Britain in 1940 - that they survived until August 1941, long after the German ambassador himself had been recalled. Torn between his duty to Germany, distinct from the Nazi regime that had attempted to harm his son, and his deep affection for America, von Boetticher stood among the broad middle range of German officials who were neither perpetrator nor victim."--BOOK JACKET.

48. Beevor, Antony. *The Mystery of Olga Chekhova*. 1st American ed. New York; London: Viking; Penguin Books, 2004.

SUMMARY: "There have been many tantalizing rumors about Olga Chekhova, the niece of Anton Chekhov. She left Russia for Germany and became a film star honored by the Nazis yet secretly worked for Soviet intelligence. Some of her closest relatives joined her in Berlin; the rest remained in Moscow. Young and beautiful yet with nothing of value but a smuggled diamond ring, Olga Chekhova left Moscow in 1920 to escape starvation and degradation. In Berlin, by making the most of her Chekhov name, she obtained a part in a silent movie. Success followed quickly, and she eventually became Hitler's favorite film star. Olga's brother, Lev Knipper, was a composer who had fought during the civil war. When he returned to Russia in 1921, he was forced to work for Soviet intelligence. His controllers sent him abroad to spy on Russian emigres and, in Germany, Lev recruited his sister as a "sleeper." Later, at the height of World War II, plans were made for the two of them to launch a suicidal attack right at the heart of the Nazi regime. In putting together this story, Antony Beevor shows how people lived under the terrible pressures of a totalitarian age. The Mystery of Olga Chekhova reveals a confusion of courage, idealism, fear, self-sacrifice, opportunism and betrayal. The astonishing part of this tale is that both Olga and Lev survived the most murderous era known in history. What they had to do to stay alive might have left deep but hidden scars."--BOOK JACKET.

53. Bennett, Rab. *Under the Shadow of the Swastika : The Moral Dilemmas of Resistance and Collaboration in Hitler's Europe*. New York: New York University Press, 1999.
SUMMARY: "This study in the ethics of war is the only work to focus on the moral dilemmas of resistance and collaboration in Nazi-occupied Europe. It presents a comprehensive guide to the harrowing ethical choices that confronted resisters, community leaders and ordinary citizens in Hitler's Europe and includes a detailed discussion of Jewish responses to Nazi rule. Bennett explores how resistance movements responded to brutal Nazi policies based on the doctrine of collective responsibility in which entire populations paid the price for the actions of a few determined rebels. Bennett offers a critique of morally questionable methods of resistance such as torture, the mutilation and killing of German prisoners of war, and guerrilla warfare."--BOOK JACKET.

70. Bergerson, Andrew Stuart. *Ordinary Germans in Extraordinary Times : The Nazi Revolution in Hildesheim*. Bloomington: Indiana University Press, 2004.
SUMMARY: "This book is a carefully drawn account of how townspeople went about their lives during the Nazi era, reacting to and shaping events. Andrew Stuart Bergerson argues that ordinary Germans did in fact make Germany and Europe more fascist, more racist, and more modern during the 1930s, but they disguised their involvement behind a pre-existing veil of normalcy. Ordinary Germans in Extraordinary Times considers the actual customs and experiences of friendship and neighborliness in a German town before, during, and after the Third Reich. By analyzing the customs of conviviality in interwar Hildesheim, and the culture of normalcy these customs invoked, Bergerson aims to help us better understand how ordinary Germans transformed "friends and neighbors" into "Jews" or "Aryans."""--BOOK JACKET.

74. Berkhoff, Karel C. *Harvest of Despair : Life and Death in Ukraine Under Nazi Rule*. Cambridge, Mass. ; London: Belknap Press of Harvard University Press, 2004.
SUMMARY: "Karel Berkhoff provides a searing portrait of life in the Third Reich's largest colony. Under the Nazis, a blend of German nationalism, anti-Semitism, and racist notions about the Slavs produced a reign of terror and genocide. But it is impossible to understand fully Ukraine's response to this assault without addressing the impact of decades of repressive Soviet rule. Berkhoff shows how a pervasive Soviet mentality worked against solidarity, which helps explain why the vast majority of the population did not resist the Germans. He also challenges standard views of wartime Eastern Europe by treating in a more nuanced way issues of collaboration and

local anti-Semitism. Berkhoff offers a multifaceted discussion that includes the brutal nature of the Nazi administration; the genocide of the Jews and Roma; the deliberate starving of Kiev; mass deportations within and beyond Ukraine; the role of ethnic Germans; religion and national culture; partisans and the German response; and the desperate struggle to stay alive."--BOOK JACKET.

86. Billinger, Robert D. *Hitler's Soldiers in the Sunshine State : German POWs in Florida*. The Florida History and Culture Series. Gainesville: University Press of Florida, 2000.
SUMMARY: "In the first book-length treatment of the German prisoner-of-war experience in Florida during World War II, Robert D. Billinger, Jr., tells the story of the 10,000 men who were "guests" of Uncle Sam in a tropical paradise that for some became a tropical hell. Except for the servicemen who guarded them, the civilian pulp-cutters, citrus growers, and sugarcane foremen who worked them, and the FBI and local police who tracked the escapees among them, most people were - and still are - unaware of the German POWs who inhabited the 27 camps that dotted the Sunshine State. Billinger describes the experiences of the Germans and their captors as both sides came to the realization that, while the Germans' worst enemies were often their own comrades-in-arms, wartime enemies might also become life-long friends. This book will be of great value to scholars and historians, as well as all readers with an interest in World War II. Those with an interest in Florida history will also find much to admire in this account of a barely known wartime episode."--BOOK JACKET.

87. Black, Edwin. *IBM and the Holocaust : The Strategic Alliance between Nazi Germany and America's most Powerful Corporation*. 1st ed. New York: Crown Publishers, 2001.
SUMMARY: "IBM and the Holocaust is the story of IBM's strategic alliance with Nazi Germany - beginning in 1933 in the first weeks that Hitler came to power and continuing well into World War II. As the Third Reich embarked upon its plan of conquest and genocide, IBM and its subsidiaries helped create enabling technologies, step-by-step, from the identification and cataloging programs of the 1930s to the selections of the 1940s. Only after Jews were identified - a massive and complex task that Hitler wanted done immediately - could they be targeted for efficient asset confiscation, ghettoization, deportation, enslaved labor, and, ultimately, annihilation. It was a cross-tabulation and organizational challenge so monumental, it called for a computer. Of course, in the 1930s, no computer existed. But IBM's Hollerith punch card technology did exist. Aided by the company's custom-designed and constantly updated Hollerith systems, Hitler was able to automate his persecution of the Jews. Historians have always been amazed at the speed and accuracy with which the Nazis were able to identify and locate European Jewry. Until now, the pieces of this puzzle have never been fully assembled. The fact is, IBM technology was used to organize nearly everything in Germany and then Nazi Europe, from the identification of the Jews in censuses, registrations, and ancestral tracing programs to the running of railroads and organizing of concentration camp slave labor. IBM and the Holocaust takes you through the carefully crafted corporate collusion with the Third Reich, as well as the structured deniability of oral agreements, undated letters, and the Geneva intermediaries - all undertaken as the newspapers blazed with accounts of persecution and destruction."--BOOK JACKET.

93. Bowen, Wayne H. *Spaniards and Nazi Germany : Collaboration in the New Order*. Columbia, Mo: University of Missouri Press, 2000.
SUMMARY: "This study shows that Naziphiles within the Spanish Falange, Spain's fascist party, made a concerted effort to bring their nation into World War II, and that only the indecisiveness of dictator Francisco Franco and diplomatic mistakes by the Nazis prevented them from succeeding. Bowen demonstrates that while Spain was neutral in World War II, its policies clearly favored the Axis, at least in the early stages of the war. Franco, who had emerged victorious from the Spanish Civil War in 1939 largely because of support from Adolf Hitler and Benito Mussolini, even carefully considered entering World War II on the side of Nazi Germany. Spaniards and Nazi Germany presents many possibilities for what might have been a far different outcome of World War II in Europe. It shows that even without the full support of the Spanish or German governments, pro-Nazi Spaniards, even if they did not quite bring Spain into the war, added to the strength of the Third Reich by serving in its armies, working in its factories, and promoting its ideas to other nations."--BOOK JACKET.

107. Bukey, Evan Burr. *Hitler's Austria : Popular Sentiment in the Nazi Era, 1938-1945*. Chapel Hill ; London: University of North Carolina Press, 2000.
SUMMARY: "Although Austrians comprised only 8 percent of the population of Hitler's Reich, they made up 14 percent of SS members and 40 percent of those involved in the Nazis' killing operations. This was no coincidence. Popular anti-Semitism was so powerful in Austria that once deportations of Jews began in 1941, the streets of Vienna were frequently lined with crowds of bystanders shouting their approval. Such scenes did not occur in Berlin. Exploring the convictions behind these phenomena, Evan Bukey offers a detailed examination of popular opinion in Hitler's native country after the Anschluss (annexation) of 1938. He uses evidence gathered in Europe and the United States to dissect the reactions, views, and conduct of disparate political and social groups - most notably the Austrian Nazi Party, the industrial working class, the Catholic Church, and the farming community."--BOOK JACKET.

115. Carrier, Peter. *Holocaust Monuments and National Memory Cultures in France and Germany since 1989 : The Origins and Political Function of the Vél' d'Hiv' in Paris and the Holocaust Monument in Berlin*. New York: Berghahn Books, 2005.
SUMMARY: "Since 1989, no two sites of memory have captured public attention with respect to the deportation and persecution of Jews in France and Germany during the Second World War more intensely than the Vel' d'Hiv' (Winter Velodrome) in Paris and the Monument for the Murdered Jews of Europe or 'Holocaust Monument' in Berlin. Why is this so? Both monuments, the author argues, are unique in the history of memorial projects. Although they are genuine 'sites of memory,' neither monument celebrates history but rather serves as a platform for the deliberation, negotiation, and promotion of social consensus over the memorial status of war crimes in France and Germany. The debates over these monuments indicate that it is the communication among members of the public via the mass media rather than qualities inherent in the sites themselves, which transformed these sites into symbols beyond traditional conceptions of heritage and patriotism."--BOOK JACKET.

SUMMARY: "When WWII erupted in Europe, Konard Charmatz was a prospering businessman in Sosnowiec, Poland, a loving son, and aspiring poet. For the next seven years he witnessed the Holocaust as it destroyed his family, his country, and his culture. In this astonishing story of suffering and survival, he gives his own personal account of the Warsaw ghetto, the death chambers at Auschwitz, the transport trains, the slave labor camps of Dachau, and the liberation. And from the perspective of the renowned journalist he later became, he also describes how the

Holocaust was carried out not only at the level of the governments and their armies but also by the individuals who were following their orders. Few people survived the Holocaust from such close range or for so long, and few remembered it with the eye of a practiced journalist."--BOOK JACKET.

127. Conradi, Peter. *Hitler's Piano Player : The Rise and Fall of Ernst Hanfstaengl, Confidant of Hitler, Ally of FDR*. 1st Carroll & Graf ed. New York; Berkeley, Calif.: Carroll & Graf; Distributed by Publishers Group West, 2004.
SUMMARY: "He was a man who enjoyed the confidences of both the Fuhrer and FDR, a man with the world's most unique perspective on the cataclysmic events of the early twentieth century. Ernst Hanfstaengl (known to all as Putzi) was haughty court jester, soothing pianist, and savvy foreign press chief for Hitler during the Nazi leader's ascendancy and later played a lead role in Roosevelt's top-secret project to use black propaganda against the Third Reich. Filled with revelations about Hitler's personal life and descriptions of American psychological warfare, Hitler's Piano Player tells the story of a man torn apart by the most antagonistic of loyalties. An urbane Harvard-educated German, Putzi was living in Germany in 1922 when he first heard Adolf Hitler speak in a Munich beer hall. Introducing himself after the speech, Putzi began one of the strangest relationships in twentieth-century politics. As he tried to ingratiate Hitler with Munich high-society and polish his image in the eyes of the world, Putzi also helped finance Mein Kampf, claimed to have devised the chant of "Sieg Heil," tried desperately to get Hitler to meet with Winston Churchill, and attempted to fix Hitler up with the American ambassador's daughter. But he fell out of the future Fuhrer's graces, barely escaped Germany with his life, and fled to Britain, where he was interned and then transferred to Canada and finally to America. Once there, he worked with his old acquaintance from New York's Harvard Club, Franklin Roosevelt. The star of Roosevelt's "S-Project", Putzi provided the White House with biographical information on hundreds of leading Nazis, analyses of Hitler's speeches, and a sixty-eight-page psychological portrait of Hitler describing his education, diet, and his sex life. Through newly declassified documents, interviews with surviving members of the Hanfstaengl family, and original writings by Putzi, historian and author Peter Conradi has crafted the story of history's missing link between Hitler and FDR."--BOOK JACKET.

129. Corni, Gustavo. *Hitler's Ghettos : Voices from a Beleaguered Society, 1939-1944*. Trans. by Nicola Rudge Iannelli. London; New York: Arnold; Oxford University Press, 2002. Originally published as: *Ghetti di Hitler*.
SUMMARY: "Hundreds of ghettos were created throughout eastern Europe by the Germans and their allies during the Second World War. Some were large - the one in Warsaw held almost half a million people in 1942 - others were very small. All had the purpose of holding Jews separate from the rest of the population, almost invariably in extraordinary deprived, squalid and crowded

conditions. They became antechambers to the death camps but that purpose was not clear to most of their inhabitants. These 'cities within cities' merit consideration, then, not just as staging posts in the extermination of European Jewry but as communities in their own right, with their own dynamics, in which elements of traditional pre-war Jewish society continued to exist. There have been some studies of the largest ghettos - Warsaw and Lodz - and a few accounts of some of the smaller ones; but very little examination of the ghettos as a whole. This pioneering new history draws heavily on the testimonies of those who suffered in them, making use of a wide range of diaries and memoirs (and exploring the problems inherent in such sources). Other documentary sources - particularly German - are also used, but the intention is to look at the ghettos 'from below', focusing on behaviour, values and suffering, as well as on the heroism and the passiveness of the Jewish communities. Never before has personal testimony been so extensively used and systematically evaluated to write a history of the East European ghettos."--

140. Delattre, Lucas. *A Spy at the Heart of the Third Reich : The Extraordinary Story of Fritz Kolbe, America's most Important Spy in World War II*. 1st ed. New York: Atlantic Monthly Press, 2005.
Originally published as: *Fritz Kolbe*.
SUMMARY: "In 1943 Fritz Kolbe, an official from the German foreign ministry, arranged to meet with Allen Dulles, then the head of the OSS in Switzerland and later the director of the Central Intelligence Agency. Kolbe was the assistant to a highly placed official, Ambassador Karl Ritter, and privately detested Nazism. He had long agonized about staying in his post, until finally, faced with the reality of the Nazi program, he reluctantly concluded that the most valuable service he could provide to Germany, if not the Party, was to assist the Allies. While Dulles was skeptical, he was soon convinced that Kolbe was a vital source of intelligence - the location of munitions factories and Hitler's headquarters; diplomatic reports on Germany's relations with other Axis nations like Romania and nominally neutral countries like Spain; Germany's intelligence and who in the Allied effort was working for the enemy. Though a staunch patriot and one of the few Germans to take such risks, after the war he was viewed by many Germans as a traitor and his contributions were largely forgotten. Drawing on government documents only declassified in 1998 by President Clinton and Kolbe's personal archives, this is the first time his story has been told."--BOOK JACKET.

148. Diner, Dan. *Beyond the Conceivable : Studies on Germany, Nazism, and the Holocaust*. Weimar and Now ; 20. Berkeley, Calif. ; London: University of California Press, 2000.
SUMMARY: "These essays by Dan Diner reflect the author's belief that the Holocaust transcends traditional patterns of historical understanding and requires an epistemologically distinct approach. Diner focuses above all on perspectives: the very notions of rationality and irrationality are seen to be changeable, depending on who is applying them. And because neither rational nor irrational motives can be universally assigned to participants in the Holocaust, Diner proposes, from the perspective of the victims, the idea of the counterrational. His work is directed toward developing a theory of Holocaust historiography and offers, clearly and coherently, the highest level of reflection on these problems."--BOOK JACKET.

151. Dobbs, Michael. *Saboteurs : The Nazi Raid on America*. 1st ed. New York: Knopf : Distributed by Random House, 2004.
SUMMARY: "Shortly after America's entry into World War II, Adolf Hitler ordered an extensive sabotage campaign against the United States to disrupt the production of tanks and airplanes and blow up bridges and railroads. Eight German saboteurs were dispatched across the Atlantic by U-boat, one team landing in Amagansett, Long Island, the other near Jacksonville, Florida. They brought with them enough money and explosives for a two-year operation and traveled inland to explore potential targets. The full story of this audacious endeavor is a remarkable account of a terrorist threat against America. Michael Dobbs describes the saboteurs' training in Nazi Germany, their claustrophobic three-week voyage in submarines, and their infiltration into American life. He explores the reasons each volunteered, and their links to a network of Nazi sympathizers in the United States. He paints a portrait of the group's leaders: George Dasch, a onetime waiter who dreamed of leaving his personal mark on history, and Edward Kerling, a fanatic Nazi caught between his love for his mistress and his love for his wife. And he shows how the FBI might never have captured the saboteurs had one of them not helped J. Edgar Hoover transform a hapless manhunt into one of his proudest accomplishments. A military tribunal, a

historic Supreme Court session, and one of the largest mass executions in American history provide a stunning climax to a dangerous but failed mission."--BOOK JACKET.

162. Duggan, John P. *Herr Hempel at the German Legation in Dublin, 1937-1945*. Dublin, Ireland ; Portland, OR: Irish Academic Press, 2003.
SUMMARY: "Dr. Eduard Hempel was German Minister in Dublin from 1937 to 1945, the period known in Ireland as 'the Emergency'. A conservative career diplomat who was only a nominal member of the Nazi Party, Hempel faced the dilemma of having to implement Nazi foreign policy whilst strictly observing the diplomatic protocols required by Ireland's neutrality. He had to satisfy Eamon de Valera, the British government and his German paymasters at a time when Third Reich diplomacy lacked unity and was subject to interference from several competing maverick agencies: Ribbentrop and Veessenmayer were bent on fomenting rebellion in Ireland, while Admiral Canaris masterminded intelligence-gathering and espionage operations. In this engaging portrait John Duggan describes and evaluates Hempel's impossible mission, and throws valuable new light on Ireland's neutrality during World War II."--BOOK JACKET.

163. Dunn, Walter S. *Heroes Or Traitors : The German Replacement Army, the July Plot, and Adolf Hitler*. Westport, Conn. ; London: Praeger, 2003.
SUMMARY: "When a German victory became impossible, the July 1944 conspirators plotted to bring a quick end to the war, hoping to negotiate a peace with the Western allies and possibly to join them in a war against Russia. Because the Allies would not negotiate with Hitler, the plotters planned to assassinate him and seize control of the government, using the Replacement Army to overcome the S.S. and the Nazi Party. This army would also maintain order within Germany, a task that would require more than half-a-million trained men. The conspirators convinced key Replacement Army officers to withhold men from the Field Army in the spring of 1944 in preparation for taking over the country. The result was a German army that lacked enough reserve divisions to counter the invasion of France and the Red Army attack in Russia. Although the plotters failed to kill Hitler, they hastened the war's end by weakening the German army. Dunn examines the 1944 July Plot from a manpower and logistics perspective to demonstrate that the conspirators did, in fact, achieve their goal of hastening the war's end."--BOOK JACKET.

173. Eisner, Peter. *The Freedom Line : The Brave Men and Women Who Rescued Allied Airmen from the Nazis during World War II*. 1st ed. New York: W. Morrow, 2004.
SUMMARY: "The Freedom Line traces the true story of Robert Grimes, a twenty-year-old American B-17 pilot whose plane was shot down over Belgium on October 20, 1943. Wounded, disoriented and scared, he was rescued by operatives of the Comet Line, a group of tenacious young women and men from Belgium, France and Spain who joined forces to recover Allied aircrews and take them to safety. Brought back to health with their help, Grimes was pursued by bloodhounds, the Luftwaffe security police and the Gestapo. And on Christmas Eve 1943, he and a group of fellow Americans faced unexpected danger and tragedy on the border between France and Spain. The road to safety was a treacherous journey by train, by bicycle and on foot that

stretched hundreds of miles across occupied France to the Pyrenees Mountains at the Spanish border. Armed with guile and spirit, the selfless civilian fighters of the Comet Line had risked their lives to create this underground railroad, and by this time in the war, they had saved hundreds of Americans, British, Australians and other Allied airmen. Led by an elegant young Belgian woman, Dedee de Jongh, the group included Jean-Francois Nothomb, an army veteran who became the group's leader after Dedee was captured; Micheline Dumont, code-named Lily, who wore bobby sox to appear as a teenage girl; and Florentino, the tough Basque guide who, when necessary, carried exhausted refugees on his back over the mountains to save them from the Nazis. All the while, the Gestapo and Luftwaffe police were on their trail. If caught, the airmen faced imprisonment, but their helpers would be tortured and killed. Based on interviews with the survivors and in-depth archival research, *The Freedom Line* is the story of a group of friends who chose to act on their own out of a deep respect for liberty and human dignity."--

181. ———. *The Coming of the Third Reich*. 1st American ed. New York: Penguin Press, 2004.

SUMMARY: "In 1900, Germany was one of modernity's great success stories: The most progressive and dynamic nation in Europe, it was the only country whose rapid economic growth and innovation rivaled that of the United States. Its political culture was far less authoritarian than Russia's and less anti-Semitic than France's. Representative institutions thrived, and competing political parties and elections were a central part of life. How, then, could it be that in little more than a generation this stable modern country would fall into the hands of Adolf Hitler

and the violent, racist, extremist political movement he led, a movement that would lead Germany and then all of Europe into utter moral, physical, and cultural ruin? There is no story in twentieth-century history more important to understand, and Richard Evans has written the definitive account for our time. A masterful synthesis of a vast body of scholarly work integrated with important new research and interpretations, Evans's history restores drama and contingency to the rise to power of Hitler and the Nazis, even as he shows how ready Germany was by the early 1930s for such a takeover to occur. Its citizens were angry and embittered by military defeat and economic ruin, and its young democracy undermined by a civil service, an army, and a law enforcement system deeply alienated from the new order. The electorate was beset by growing extremism and panic about communism; and the small but successful Jewish community was subject to wide-spread suspicion and resentment. In the end, though nothing about what happened was preordained, Germany proved to be fertile ground for Nazism's ideology of hatred."--BOOK JACKET.

182. ——. *Lying about Hitler : History, Holocaust, and the David Irving Trial*. New York: Basic Books, 2001.

SUMMARY: "Last Year, in the most famous Holocaust court case since the Adolf Eichmann trial, controversial author David Irving brought a libel suit against Penguin Books UK and author Deborah Lipstadt, who had denounced Irving in print as one of the most dangerous Holocaust deniers at work today. As the chief historical adviser to Penguin Books in its successful defense of Lipstadt, Richard J. Evans spent two years of research in preparation for this case. In *Lying About Hitler*, Evans uses the trial as a lens for exploring a range of vital questions such as who was responsible for violence and genocide against the Jews in Nazi Germany, what Hitler knew and when, and how far his henchmen Himmler and Goebbels and Nazi officials in the SS acted on their own initiative in organizing the violence and mass murder perpetrated by the Nazi regime against the Jews. In ruling against David Irving in April 2000, the High Court in London labeled him a falsifier of history. No objective historian, declared the Judge, would manipulate the documentary record in the way that Irving did. Yet, one could ask, is a court of law the appropriate place to debate history? Can it really settle issues of objectivity and bias in the study of the past? Don't all historians in the end bring a subjective agenda to bear on their reading of the evidence? The judgment branded Irving a racist, an anti-Semite and an active supporter of neo-fascism. Is it possible, though, that he lost his case not because of his biased history but because his agenda was unacceptable? Evans answers these questions and more in ways that may surprise many of the commentators and pundits on the trial. While most people would share the court's views of Irving's work, some commentators have feared that the verdict will make it all but impossible to question the accepted version of the Holocaust."--BOOK JACKET.

193. ——. *Speer : The Final Verdict*. Trans. by Ewald Osers and Alexandra Dring. 1st U.S. ed. New York ; London: Harcourt, 2001. Originally published as: *Speer*.
SUMMARY: "Albert Speer is a great enigma. An unemployed, mediocre architect when Hitler came to power in 1933, he was soon designing the Third Reich's most important buildings, developing grandiose plans to turn Berlin into "Germania, capital of the world," and stage-managing the Nazi

Party's Nuremberg rallies. In 1942 Hitler appointed him Armaments Minister and he quadrupled production, an astonishing achievement that kept the German Army in the field and prolonged the war. Yet Speer's life was full of contradictions. The only member of the Nazi elite with whom Hitler developed more than a purely functional relationship (he has even been called "Hitler's unrequited love") Speer was always an outsider in Hitler's inner circle. He saw himself as an artist, above the crass power struggles of the roughnecks around him, but his enormous ambition made him oblivious to the crimes of anti-Semitism and the devastation of Europe. Spared the death sentence at Nuremberg, Speer went on to rehabilitate himself in the public eye, becoming for many a symbol of German exoneration."--BOOK JACKET.

214. Friedman, Max Paul. *Nazis and Good Neighbors : The United States Campaign Against the Germans of Latin America in World War II*. Cambridge, UK ; New York: Cambridge University Press, 2003.
SUMMARY: "Based on research in seven countries, this international history uncovers an American security program in which Washington reached into fifteen Latin American countries to seize more than 4,000 German expatriates and intern them in the Texas desert. The crowd of Nazi Party members, antifascist exiles, and even Jewish refugees were lumped together in camps riven by strife. The book examines the evolution of governmental policy, its impact on individuals and emigrant communities, and the ideological assumptions that blinded officials in both Washington and Berlin to Latin American realities. Franklin Roosevelt's vaunted Good Neighbor policy was a victim of this effort to force reluctant Latin American governments to hand over their

German residents, while the operation ruined an opportunity to rescue victims of the Holocaust. This study makes the very contemporary argument that security measures based on group affiliation rather than individual actions are as unjust and ineffective in foreign policy as they are in law enforcement."--BOOK JACKET.

217. Fritz, Stephen G. *Endkampf : Soldiers, Civilians, and the Death of the Third Reich.* Lexington, Ky: University Press of Kentucky, 2004.

SUMMARY: "Endkampf is unique in its examination of the end of World War II from both the American and German military perspectives. Fritz documents the harsh fighting experienced by American GIs in Franconia and investigates the complex postwar relationships among GIs, Germans, and displaced persons. He focuses on average soldiers and civilians and how they faced the threat and reality of military violence and Nazi-inspired terrorist measures as they negotiated the often treacherous path from war to peace. Endkampf is a portrait of the collapse of Nazi society and how it affected those involved, whether they were soldiers or civilians, victors or vanquished, perpetrators or victims."--BOOK JACKET.

236. Gildea, Robert. *Marianne in Chains : Everyday Life in the French Heartland Under the German Occupation*. 1st American ed. New York: Metropolitan Books, 2003.
SUMMARY: "Drawing on previously unseen archives, firsthand interviews, diaries, and eyewitness accounts, Robert Gildea reveals everyday life in the heart of occupied France. He describes the pressing imperatives of work, food, transportation, and family obligations that led to unavoidable compromise and negotiation with the army of occupation. In the process, he sheds light on such subjects as forced labor, the role of the Catholic Church, the "horizon collaboration" between French women and German soldiers, and, most surprising, the ambivalent attitude of ordinary people toward the Resistance, which was often dismissed as a bunch of bandits who were militarily irrelevant."--BOOK JACKET.

243. Godman, Peter. *Hitler and the Vatican : Inside the Secret Archives that Reveal the New Story of the Nazis and the Church*. New York ; London: Free Press, 2004.
SUMMARY: "For years, the policies of the Catholic Church during the rise and terribly destructive rule of the Nazis have been controversial. Pope Pius XII has been attacked as "Hitler's Pope," an anti-Semitic enabler who refused to condemn Nazism, much less urge Catholics to resist the German regime. The Church has been accused of standing by while the Nazis steadily revealed their evil designs. Yet all such arguments have been based only on sketchy evidence. The Vatican has kept its internal workings secret and locked away from scrutiny. Until now. In February 2003, the Vatican opened its archives for the crucial years of the Nazi consolidation of power, up until 1939. Peter Godman, thanks to his long experience in Vatican sources and his reputation as an impartial, non-Catholic historian of the Church, was one of the first scholars to explore the new documents. The story they tell is revelatory and surprising and forces a major revision of the history of the 1930s. It is a story that reveals the innermost workings of the Vatican, an institution far more fractured than monolithic, one that allowed legalism to trump moral outrage. Godman's narrative is doubly shocking: At first, the Church planned to condemn Nazism as

heretical, and drafted several variations of its charges in the mid-1930s. However, as Mussolini drew close to Hitler, and Pope Pius XI grew more concerned about communism than fascism, the charge was reduced to a denunciation only of bolshevism. The Church abandoned its moral attack on the Nazis and retreated to diplomacy, complaining about treaty violations and delivering weak protests while the horrors of religious persecution mounted. As Godman demonstrates, the policies of Pius XII were all determined by his predecessor, Pius XI. The Church was misled not so much by "Hitler's Pope" as by a tragic miscalculation and a special relationship with the Italian government. Mussolini toyed with the Church, even proposing that Hitler be excommunicated. Yet in the end, when presented with further evidence of Nazi depredations, Pius XI could only comment, "Kindly God, who has allowed all this to happen at present, undoubtedly has His purpose."--BOOK JACKET.

CALL NUMBER: D810.C6 G63 2004

244. Goldensohn, Leon and Robert Gellately. *The Nuremberg Interviews*. 1st ed. New York: Knopf : Distributed by Random House, 2004.

SUMMARY: "The Nuremberg Interviews reveals the chilling innermost thoughts of the former Nazi officials under indictment at the famous postwar trial. The architects of one of history's greatest atrocities speak out about their lives, their careers in the Nazi Party, and their views on the Holocaust. Their reflections are recorded in a set of interviews conducted by a U.S. Army psychiatrist. Dr. Leon Goldensohn was entrusted with monitoring the mental health of the two dozen German leaders charged with carrying out genocide, as well as that of many of the defense and prosecution witnesses. These recorded conversations have gone largely unexamined for more than fifty years. Now, Robert Gellately - one of the premier historians of Nazi Germany - has transcribed, edited, and annotated the interviews, and makes them available to the public for the first time in this volume. These interviews are deeply disturbing in their illumination of an ideology gone mad. Each interview is annotated with biographical information that places the man and his actions in their historical context. These interviews are a profoundly important addition to our understanding of the Nazi mind and mission."--BOOK JACKET.

CALL NUMBER: KZ1176 .G65 2004

245. Good, Michael. *The Search for Major Plagge : The Nazi Who Saved Jews*. 1st ed. New York: Fordham University Press, 2005.

SUMMARY: "Karl Plagge's story is of a unique kind of courage - that of a German army officer who subverted the system of death to save the lives of some 250 Jews in Vilna, Lithuania. One of those he saved was Michael Good's mother. Haunted by his mother's stories of a mysterious officer who commanded her slave labor camp, Michael Good resolved to find out all he could about the enigmatic "Major Plagge." For five years, he wrote hundreds of letters and scoured the Internet to recover, in one hard-earned bit of evidence after another, information about the man whose moral choices saved hundreds of lives. This book is the first portrait of a modest man who simply refused to play by the rules. In this journey of discovery, Good fills the missing pages in Karl Plagge's story. Insisting to the end that he was never a hero, Plagge said he saved Jews - and others - because "I thought it was my duty."--BOOK JACKET.

246. Goodfellow, Samuel Huston. *Between the Swastika and the Cross of Lorraine : Fascisms in Interwar Alsace*. DeKalb: Northern Illinois University Press, 1999.

SUMMARY: Through the unique window of Alsace during the 1920s and 1930s, Goodfellow reveals the many faces of fascism and demonstrates its flexibility and coherence as an ideology. His study of this region, where the interplay of French, German, and Alsatian nationalities allowed

a variety of fascisms to flourish, proves a framework for understanding how this ideology has mutated over time to fit changing contexts. Looking at various groups, Goodfellow shows how fascism varied according to its social support. Different fascism catered to distinct social constituents: there were elitist, peasant, lower middle-class, regionalist, and mass fascist parties, each with a sociologically appropriate ideological variant. Examining these variants and the people who embraced them, Goodfellow redefines fascism as simultaneously divided against itself and tremendously fluid. Between the Swastika and the Cross of Lorraine will appeal to those interested in French and German history and the nature of fascism and its evolution in the twentieth century.

260. Groth, Alexander J. *Democracies Against Hitler : Myth, Reality and Prologue*. Aldershot, England ; Brookfield, Vt: Ashgate, 1999.
SUMMARY: This book examines the response of political democracies to the phenomenon of Hitlerism, beginning with democracy in Germany itself in the 1920s and 30s, and ending up with

Britain and the US in the 40s. Contrary to mythology, this response was far more a failure than a success. The alleged capabilities of democracy, advocated from the time of John Stuart Mill to that of Gabriel Almond, have been greatly 'oversold!' Self-indulgent escapism dominated the democracies' behaviour. Until the mistake of Barbarossa, victory was in Hitler's grasp. Democracies were very slow learners and mediocre battlefield performers. The Jews of Europe were abandoned by the democracies to their fate and exorbitant territorial and political concessions were made to Russia in order to shift the military burden from the democracies in the 1940s.

282. Hamann, Brigitte and Thomas K. Thornton. *Hitler's Vienna : A Dictator's Apprenticeship*. Trans. by Thomas Thornton. New York ; Oxford: Oxford University Press, 1999. Originally published as: *Hitlers Wien*.
SUMMARY: Hitler's Vienna explores the critical years that the young Adolf Hitler spent in Vienna, the city that in so many ways furnished the future dictator's education. It is both a cultural and political portrait of the Austrian capital and a biography of Hitler during his years there, from 1906 until his departure for Munich in 1913 at the age of twenty-four. Hitler's was not the modern, artistic "fin-de-siecle Vienna" we associate with Freud, Mahler, Schnitzler, and Wittgenstein. Instead, it was a cauldron of fear and ethnic rivalry, a metropolis teeming with "little people" who rejected Viennese modernity as too international, too libertine, and too Jewish. It was a breeding ground for racist political theories, where one leading member of parliament said, to the cheers of his colleagues, "I would like to see all Jews ground to artificial fertilizer." Brigitte Hamann vividly depicts the undercurrent of disturbing ideologies that flowed beneath the glitter of the Hapsburg capital. Against this background, Hamann tells the story of the moody, curious, intense, painfully shy young man from the provinces, Adolf Hitler. Drawing on previously untapped sources that range from personal reminiscences to the records of homeless shelters where the unemployed Hitler spent his nights, Hamann gives us the fullest account ever rendered of this period of Hitler's life and shows us how profoundly his years in Vienna influenced his later career. Hitler's Vienna is a major addition to present Hitler scholarship.

290. Harrington, Dale. *Mystery Man : William Rhodes Davis, Nazi Agent of Influence*. 1st ed. Dulles, Va: Brassey's, 1999.
SUMMARY: "William Rhodes Davis was Adolf Hitler's main agent of influence in the United States. Mystery Man tells his strange story for the first time. A superb manipulator, Davis could beguile German leaders while simultaneously receiving the assistance of American labor leader John L. Lewis and President Franklin D. Roosevelt. Among his many nefarious deeds was the acquisition of much of the oil Hitler needed to start World War II and the delivery of five million dollars from Germany to the Republican Party for the 1940 presidential campaign. This revealing book tells how powerful American, British, and Mexican business and political leaders helped a talented and complex man serve Hitler while he made and lost and made again millions of dollars. It also looks into the Establishment's attempts to cover up the part that prominent American leaders played in Davis's activities - and perhaps in his mysterious death."--BOOK JACKET.

295. Harvey, Elizabeth. *Women and the Nazi East : Agents and Witnesses of Germanization*. New Haven Conn. ; London: Yale University Press, 2003.
SUMMARY: "This book examines the role of German women in borderlands activism in Germany's eastern regions before 1939 and their involvement in Nazi measures to Germanize occupied Poland during the Second World War. Drawing on previously untapped material from Polish and German archives, as well as memoirs and oral testimony from German women who were sent to wartime Poland, Elizabeth Harvey analyses the function of female activism within Nazi imperialism and the extent to which women embraced policies intended to segregate Germans from non-Germans and to persecute Poles and Jews. Casting fresh light on women's attitudes towards and involvement in Nazi policies, the book emphasises the distinctive nature of female complicity in the system of racist domination. Harvey offers a new perspective on Nazi occupation policies, with vivid insights into regime practices at the grass roots and German civilian responses to the treatment of the Polish and Jewish population. In addition, she explores the complex ways in which Germans after 1945 remembered the Nazi East."--BOOK JACKET.

310. Herbst, Jurgen. *Requiem for a German Past : A Boyhood among the Nazis*. Madison, Wis. ; London: University of Wisconsin Press, 1999.
SUMMARY: Jurgen Herbst's account of growing up in Nazi Germany from 1928 to 1948 is a boy's experience of anti-Semitism and militarism from the inside. It is also a tale of moral awakening. Jurgen Herbst was a middle-class boy in a Lutheran family that saw value in Prussian military ideals and a mythic German past. He recalls his confusion as some of his classmates were no longer welcome at his school, and his consternation as he tried to reconcile what he learned from his favorite teachers and what was subsequently taught by their Nazi party replacements. His description of walking to school the morning after Kristallnacht is clear and chilling. At age ten Herbst joined the Jungvolk and slowly became aware of the real nature of the National Socialist regime. The story of that evolution - a unique, insider's view of the Nazi youth movement - is inspired by young Jurgen's deep friendships with his fellow students and their dedication to a military code of personal honor and loyalty. His devotion to those young men allowed him to endure scorn and deprivation and to risk personal well-being, even life, in the face of a brutal evil that demanded unquestioning allegiance.

322. Hilton, Fern Overbey. *The Dachau Defendants : Life Stories from Testimony and Documents of the War Crimes Prosecutions*. Jefferson, N.C. ; London: McFarland, 2004.
SUMMARY: "In the 489 Dachau trials, 1700 criminals of Nazi Germany faced American justice. The defendants varied from major figures in the Reich, to farmers, students, and villagers. The crimes included atrocities committed against victims of all nationalities in the concentration camps and transports. In this study, a broad group of representative trials offer an understanding of World War II German culture. In demonstrating that the average citizen could be as devoted to the Nazi cause as Hitler, it hopes to reveal something about those who would not stand up to him, who tolerated him, or who joined him. It addresses the disturbing reality that many atrocities committed in the Hitler era were the result of personal decisions. Written from primary source documents including official files and reviews of the trials, the book describes the cases and provides defendants' personal details: upbringing, education, career choices, their behavior during the trials, and their lives afterward. The study concludes with an appendix, arranged by series, of all cases by number and name of the case (defendant), and a bibliography. It is illustrated with photographs of the defendants and relevant sites and events."--BOOK JACKET.

SUMMARY: "The three Stauffenberg brothers, Berthold, Alexander and Claus, were inseparable both emotionally and intellectually. Their view of human existence was rooted in their south German aristocratic background, in classical antiquity, and in Christian culture, as well as in the nineteenth and twentieth centuries. Pindar, Dante, Holderlin and Stefan George were their

principal literary heroes; Alexander, Caesar, Frederick II, Napoleon and Gneisanau were their models in generalship and statesmanship. This 'family biography' describes the brothers' youth and formative years, their association with the circle of the poet Stefan George, and their professional and political development. Their professions and their political and military environments led them to take fundamental positions on the military ethos and on their government's and Hitler's tyranny. The military career of Claus, Count Stauffenberg and his fight to overthrow Hitler, culminating in the attempted assassination and coup of 20 July 1944, provide the focus for the book. It is based on the most comprehensive collection of sources yet used, including family papers, correspondence, and information from numerous contemporaries, with a unique collection of illustrative material."--BOOK JACKET.

338. Housden, Martyn. *Hans Frank : Lebensraum and the Holocaust*. Houndmills England ; New York: Palgrave Macmillan, 2003.

SUMMARY: "Hans Frank was hanged at Nuremberg in 1946. He was guilty of war crimes and crimes against humanity. As Governor General in southern Poland during the Second World War, he was an accomplice to the Holocaust, the attempted genocide of the Polish nation and the implementation of economic policies uniquely devoid of moral insight. His central involvement in Hitler's criminal project to create a Lebensraum empire in Eastern Europe marked the culmination of along political career characterised by a singular devotion to the Führer. As Adolf Hitler's personal lawyer, he had defended Nazis in high-profile court cases during the Weimar years. Between the 'seizure of power' and the outbreak of war, he led the Nazification of Germany's lawyers. But in Poland, Hans Frank got his hands bloody. This study examines the beliefs, motives and management practices of Hitler's most complicated paladin."--BOOK JACKET.

342. Hunt, Irmgard A. *On Hitler's Mountain : Overcoming the Legacy of a Nazi Childhood*. 1st ed. New York: William Morrow, 2005.

SUMMARY: "On Hitler's Mountain is a revealing account of a seemingly halcyon life lived mere paces from a center of evil and madness; a memoir of an "ordinary" childhood spent in an extraordinary time and place. Born in 1934, Irmgard Hunt grew up in the picturesque Bavarian village of Berchtesgaden, in the shadow of the Eagle's Nest and near Adolf Hitler's luxurious alpine retreat. The very model of blond Aryan "purity," Irmgard sat on the Fuhrer's knee for photographers, witnessed with excitement the comings and goings of all manner of famous personages, and with the blindness of a child accepted the Nazi doctrine that most of her family and everyone around her so eagerly embraced. Here, in a picture-postcard world untouched by the war and seemingly unblemished by the horrors Germany's master had wrought, she accepted the lies of her teachers and church and civic leaders, joined the Hitler Youth at age ten, and joyfully sang the songs extolling the virtues of National Socialism. But before the end - when she and other children would be forced to cower in terror in dank bomb shelters and wartime deprivations would take a harrowing toll - Irmgard's doubts about the "truths" she had been force-fed increased, fueled by the few brave souls who had not accepted Hitler and his abominations. After the fall of the brutal dictatorship and the suicide of its mad architect, many of her neighbors and loved ones still clung to their beliefs, prejudices, denial, and unacknowledged guilt. Irmgard, often feeling lonely in her quest, was determined to face the truth of her country's criminal past and to bear the responsibility for an almost unbearable reality that most of her elders were determined to forget. She resolved even then that the lessons of her youth would guide her actions and steel her commitment to defend the freedoms and democratic values that had been so easily dismissed by the German people."--BOOK JACKET.

350. James, Harold. *The Nazi Dictatorship and the Deutsche Bank*. Cambridge, UK ; New York: Cambridge University Press, 2004.
SUMMARY: "This book examines the role of Deutsche Bank, Germany's largest commercial bank, in the Nazi dictatorship and asks how the bank changed and accommodated during a transition from democracy and a market economy to dictatorship and a planned economy. The book sets

out the background of the world Depression and the German banking crisis of 1931 and looks at the restructuring of German banking. It offers new material on the bank's expansion in central and eastern Europe and summarizes recent research on the bank's controversial role in gold transactions and in the financing of the construction of Auschwitz. The book also examines the role played by particular personalities in the bank's development, notably Emil Georg von Stauss and Hermann Abs."--BOOK JACKET.

351. ——. *The Deutsche Bank and the Nazi Economic War Against the Jews : The Expropriation of Jewish-Owned Property*. Cambridge ; New York: Cambridge University Press, 2001.

SUMMARY: "This book examines the role of the Deutsche Bank, Germany's largest financial institution, in the expropriation of Jewish-owned enterprises during the Nazi dictatorship, both in the existing territories of Germany and in the area seized by the German army during World War II. The author uses new and previously unavailable materials, many from the bank's own archives, to examine policies that led to the eventual genocide of European Jews. How far did the realization of the vicious and destructive Nazi ideology depend on the acquiescence, the complicity, and the cupidity of existing economic institutions and individuals? In response to the traditional argument that business cooperation with the Nazi regime was motivated by profit, this book closely examines the behavior of the bank and its individuals to suggest other motivations. No comparable study exists of a single company's involvement in the economic persecution of the Jews in Nazi Germany."--BOOK JACKET.

353. Jason, Philip K. and Iris Posner, eds. *Don't Wave Goodbye : The Children's Flight from Nazi Persecution to American Freedom*. Westport, CT: Praeger, 2004.

SUMMARY: "Sent across the ocean by their parents and taken in by foster parents and distant relatives, approximately 1,000 children, ranging in age from fourteen months to sixteen years, landed in the United States and out of Hitler's reach between 1934 and 1945. Seventy years after the first ship brought a handful of these children to American shores, the general public and many of the children themselves remain unaware of these rescues, and the fact that they were accomplished despite powerful forces in and outside the government that did not want them to occur. This is the first published account, told in the words of the children and their rescuers, to detail this unknown part of America's response to the Holocaust. It will challenge the belief that Americans did nothing to directly and actively save Holocaust victims. Judith Tydor Baumel, Holocaust scholar and sister of two rescued children, provides an introduction explaining why, when, how, and where the rescues were carried out, who the heroes and heroines were, and which individuals and organizations placed almost insurmountable obstacles in their path. This account presents both recollections and experiences recorded at the time of the rescued children, their descendants, and their rescuers."--BOOK JACKET.

356. Jones, Nigel H. and Nigel H. Jones. *A Brief History of the Birth of the Nazis*. Rev. pbk. ed. New York: Carroll & Graf, 2004.
SUMMARY: "This account shows how the birth of Nazism came out of the death throes of the Kaiser's Germany. Defeat in World War I and a narrow escape from Communist revolution brought not peace but five chaotic years (1918-23) of civil war, assassination, plots, putsches and murderous mayhem. It was an atmosphere in which civilized values withered and violent extremism flourished. The savage world of the trenches came home, carried by men who refused to admit defeat and 'who could not get the war out of their system'. In the chronicle of the Freikorps - the freebooting armies that crushed the Red revolution, then attempted to take over the state themselves by armed force - historian Nigel Jones draws on little known archives in Germany and Britain to portray a state torn between revolution and counter revolution. He reveals how that state nurtured the seeds of the Nazi era. Astonishingly this is the first in-depth study of the Freikorps to appear in English for fifty years. Yet the figures who flit through their shadowy world - Rohm, Hess, Goering, and Hitler himself - were to become frighteningly familiar just ten years after the turmoil that gave Nazism its chance. Irrational, violent, obsessed with war and death, the Freikorps failed, yet proved to be the harbinger of an even darker fate."--BOOK JACKET.

358. Joshi, Vandana. *Gender and Power in the Third Reich : Female Denouncers and the Gestapo, (1933-45)*. Houndmills, Basingstoke, Hampshire ; New York: Palgrave Macmillan, 2003.
SUMMARY: "In the last decade a considerable amount of work has been done to demystify the Gestapo, which, far from being omniscient, depended heavily on unsolicited denunciations of 'deviants and dissenters'. A substantial number of these denunciations were sent in by ordinary women. So far no one has thought to ask why. This is the first book to attempt to provide an answer. It explores those spaces within the patriarchal, sexist and racist power structures of the regime that women appropriated, by articulating and resolving their varied conflicts through denunciations. It questions the victim-vs-perpetrator paradigm within which studies on denunciation have hitherto been cast, and instead argues for a more nuanced, differentiated approach. It also places structures of male sexual aggression alongside those of female aggression towards 'community aliens'."--BOOK JACKET.

SUMMARY: "Recounts the economic annihilation of the Hungarian Jews, who - from an economic point of view - were most influential than any other Jewish community in Europe. Following the German occupation in March 1944, the collaborating Hungarian government attempted to assert its claim concerning the complete confiscation of Jewish assets at all stages along the road leading to the extermination camps. The book analyzes the role played by SS-Obersturmbannführer Kurt Becher, one of the most controversial and mysterious figures in the Hungarian and universal history of the Holocaust. Becher, delegated to Hungary by Himmler, administered and benefited from the confiscation of an enormous amount of Jewish assets."--BOOK JACKET.

368. Karina, Lilian and Marion Kant. *Hitler's Dancers : German Modern Dance and the Third Reich*. Trans. by Jonathan Steinberg. New York: Berghahn Books, 2003. Originally published as: *Tanz unterm Hakenkreuz*.
SUMMARY: "The Nazis burned books and banned much modern art. However, few people know the fascinating story of German modern dance, which was the great exception. Modern expressive dance found favor with the regime and especially with the infamous Joseph Goebbels, the Minister of Propaganda. How modern artists collaborated with Nazism reveals an important aspect of modernism, uncovers the bizarre bureaucracy which controlled culture and tells the

histories of great figures who became enthusiastic Nazis and lied about it later. The book offers three perspectives: the dancer Lilian Karina writes her very vivid personal story of dancing in interwar Germany; the dance historian Marion Kant gives a systematic account of the interaction of modern dance and the totalitarian state; and a documentary appendix provides a glimpse into the twisted reality created by Nazi racism, pedantic bureaucrats and artistic ambition."--BOOK JACKET.

372. Kater, Michael H. *Hitler Youth*. Cambridge, Mass: Harvard University Press, 2004.
 SUMMARY: "In modern times, the recruitment of children into a political organization and ideology reached its boldest embodiment in the Hitler Youth, founded in 1933 soon after the Nazi Party assumed power in Germany. Determining that by age ten children's minds could be turned from play to politics, the regime inducted nearly all German juveniles between the ages of ten and eighteen into its state-run organization. The result was a potent tool for bending young minds and hearts to the will of Adolf Hitler. Drawing on original reports, letters, diaries, and memoirs, Kater traces the history of the Hitler Youth, examining the means, degree, and impact of conversion, and the subsequent fate of young recruits. Millions of Hitler Youth joined the armed forces; thousands gleefully participated in the subjugation of foreign peoples and the obliteration of "racial aliens." Although young, they committed crimes against humanity for which they cannot escape judgment. Their story stands as a harsh reminder of the moral bankruptcy of regimes that make children complicit in crimes of the state."--BOOK JACKET.

373. Kautz, Fred. *The German Historians : Hitler's Willing Executioners and Daniel Goldhagen*. Trans. Fred Kautz. Montréal: Tonawanda, NY : Black Rose Books, 2003. Originally published as: *Holocaust-Forschung im Sperrfeuer der Flakhelfer*.
 SUMMARY: "In 1997, Daniel Goldhagen published his groundbreaking international bestseller entitled *Hitler's Willing Executioners*. Drawing on a wealth of unused archival materials, principally the testimony of the killers themselves, Goldhagen took his readers into the killing fields where Germans voluntarily hunted Jews like animals, tortured them, and then posed cheerfully for snapshots with their victims. An explosive work, exhaustively documented, and richly researched, it offered irrefutable proof that should have forced a fundamental revision in our thinking and recording of events, but instead of seeing this work as a chance to seriously re-evaluate what happened in Germany, the influential German historians angrily rejected it with accusations of a lack of scholarship, to a reaction against its popularity. This investigative work deals with that historical bias and the resulting complicity. Fred Kautz, himself a historian, could not understand why leading, professional, German historians refused to take up the gauntlet thrown by Goldhagen. *The German Historians* is the result of his attempt to get to the bottom of this mystery. First he presents an overview of Goldhagen's work, then he subjects the public, and private, utterances, and the written reviews of those prominent German historians - Hans Mommsen, Hans-Ulrich Wehler, and Eberhard Jackel - to a very close examination, and finally he draws some conclusions, and warnings, about how we record history."--BOOK JACKET. 384. ———. *The Nazi Dictatorship : Problems and Perspectives of Interpretation*. 4th ed. London; New York: Arnold; Oxford University Press, 2000.
SUMMARY: "As an exploration of the interpretational issues that eddy around the Third Reich, Ian Kershaw's Nazi Dictatorship has become a classic account. But if its core remains unchanged, its contents must necessarily reflect both new public controversies and the onrush of fresh research. In the fourth edition there are many changes of detail to accommodate this need and substantial rewritings of two chapters. No subject among those dealt with in earlier editions has been the subject of such intensive research - and bringing such rapidly changing interpretations - as 'Hitler and the Jews' and, accordingly, that chapter has been considerably changed. The book's final chapter has also undergone significant revision, to take account of the 'Goldhagen phenomenon', and also to glance back over the changing trends of research on the Third Reich as, with the passing of the generations, Hitler and his regime themselves pass into history."--BOOK JACKET.

389. Kilzer, Louis C. *Hitler's Traitor : Martin Bormann and the Defeat of the Reich*. Novato, Calif: Presido Press, 2000.
SUMMARY: "From deep inside Moscow's infamous "Center," the Soviet Union directed an espionage operation of unprecedented size and scope. Its crown jewel was "Werther," a man who over the years preceding the war had wormed his way into Hitler's innermost circle. He became the most devastating traitor to Nazi Germany and perhaps in all of history. Maria Poliakova was a beautiful, young, Russian-Jewish spymaster with a penchant for danger. Werther was Maria's agent. Together, they changed history. The evidence of the treachery is indisputable. There is no doubt that Werther existed. But who was he? Over the decades following the war, scholars searched in vain for Werther's identity. Before the recent opening of previously top-secret World War II Soviet archives, this mystery could not have been solved. Still, it took all of the investigative skills developed over decades for Pulitzer Prize-winning journalist Louis Kilzer to discover the amazing truth behind the fall of the Third Reich. After providing the reader with the necessary background information, author Kilzer thoroughly examines all possibilities. Conclusively, he identifies Hitler's chief henchman as the traitor codenamed Werther."--BOOK JACKET.

409. Knopp, Guido, Peter Adler, Bettina Dreier, and Klaus Sondermann. *Hitler's Henchmen*. Trans. by Angus McGeoch. Thrupp, Stroud, Gloucestershire: Sutton, 2000. Originally published as: *Hitlers helfer*.
SUMMARY: "Since the early 1980s Guido Knopp has talked to countless people who knew Hitler's paladins. He has interviewed family members, friends, colleagues and other eyewitnesses; and he has gained access to personal papers. His meticulous research has also uncovered new material from British and Russian archives. Here he draws the political and personal profiles of the men behind Hitler - men who became the most important pillars of the Nazi dictatorship. This new assessment of power under the swastika is the first volume in a trilogy that looks at key personalities of the Third Reich. It reveals many hitherto unknown facts and gives us a glimpse behind the scenes of the Nazi regime."--BOOK JACKET.

411. ———. *Hitler's Italian Allies : Royal Armed Forces, Fascist Regime, and the War of 1940-1943*. Cambridge, UK ; New York: Cambridge University Press, 2000.
SUMMARY: "This book tries to understand why the Italian armed forces and Fascist regime were so remarkably ineffectual at an activity - war - that was central to their existence. Military-economic weakness, Mussolini's ideological fantasies and strategic megalomania, and Hitler's failure in the wider war made Italian defeat inevitable. But those factors do not wholly account for the peculiarly undignified character of Fascist Italy's final ruin. The book offers an innovative analytical cross-section of the Italian war effort, from society and culture, through politics and war production, to strategy, operations, and tactics, and demonstrates the extent to which Italian military culture - a concept with applications far beyond Fascist Italy or its last war - and the blinkered approach of Italy's major industrial enterprises made humiliation inescapable. The result is a striking portrait of the military institutions and regime whose most significant - if temporary - conquest in 1940-43 was a dusty and useless corner of Africa, British Somaliland. The armed forces proved unable to imagine modern war, much less prepare or fight it. The industrialists, with the connivance of generals, admirals, and dictator, produced the least effective, least numerous, and most overpriced weapons of the Second World War. The regime failed miserably in mobilizing the nation's resources. Hitler's Italian Allies analyzes the resulting disasters, and explains why the Italian armed forces dissolved prematurely and almost without

resistance, in stark contrast to the grim fight to the last cartridge of Hitler's army or the fanatical faithfulness unto death of the troops of Imperial Japan."--BOOKJACKET.

416. Kochavi, Arie J. *Confronting Captivity : Britain and the United States and their POWs in Nazi Germany*. Chapel Hill: University of North Carolina Press, 2005.
SUMMARY: "In *Confronting Captivity*, Arie J. Kochavi offers a behind-the-scenes look at the conditions under which prisoners lived in Nazi camps and traces the actions the British and American governments took - and didn't take - to ensure the safety of their captured soldiers. Drawing on letters, diaries, and memoirs, Kochavi reconstructs the conditions in POW camps while embedding his narrative and analysis in the political and diplomatic developments of the war. Concern in London and Washington about the safety of soldiers imprisoned in enemy territory was mitigated by the recognition that the Nazi leadership - in contrast to its horrific treatment of Slavic POWs, for example - tended to adhere to the Geneva Convention when it came to British and U.S. prisoners."--BOOK JACKET.

420. Köhler, Joachim. *Wagner's Hitler : The Prophet and His Disciple*. Trans. by Ronald Taylor. Cambridge, UK; Malden, MA: Polity Press; Blackwell Publishers, 2000. Originally published as: *Wagners Hitler*.
SUMMARY: "Kohler traces the legacy of the German romantic tradition and the irrational, egocentric, nationalistic and intolerantly utopian features which were shared by Wagner and Hitler. He explores how Hitler discovered characters he could identify with in Wagner's work, as well as concepts he could apply to his political career, up to the point when Wagner's anti-Semitic tracts were turned into violent reality by the politician he had inspired. In a compelling study, Kohler traces Wagner's influence on Hitler from the young Austrian scraping together the price of an opera ticket, to the dictator enacting his megalomaniac Wagnerian visions of a Germany that would rule the world. He also shows how Wagner's family in Bayreuth supported Hitler from the beginning of his political career, and aided his introduction into highly influential circles."--BOOK JACKET.

423. Koonz, Claudia. *The Nazi Conscience*. Cambridge, Mass. ; London: Belknap Press of Harvard University Press, 2003.
SUMMARY: "The Nazi conscience is not an oxymoron. In fact, the perpetrators of genocide had a powerful sense of right and wrong, based on civic values that exalted the moral righteousness of the ethnic community and denounce outsiders. Claudia Koonz's latest work reveals how racial popularizers developed the infrastructure and rationale for genocide during the so-called normal years before World War II. Her careful reading of the voluminous Nazi writings on race traces the transformation of longtime Nazis' vulgar anti-Semitism into a racial ideology that seemed credible to the vast majority of ordinary Germans who never joined the Nazi Party. Challenging conventional assumptions about Hitler, Koonz locates the source of his charisma not in his summons to hate but in his appeal to the collective virtue of his people, the Volk."--BOOK JACKET.

436. Krieg, Robert Anthony. *Catholic Theologians in Nazi Germany*. New York ; London: Continuum, 2004.
SUMMARY: "Among Catholic theologians the record is no less cloudy. Catholic Theologians in Nazi Germany, while discussing a range of religious scholars, focuses on five major theologians who were born during the Kulturkampf, came to maturity and international recognition during the Hitler era, and had an influence on Catholicism in the English-speaking world. Three were in varying degrees and for varying lengths of time sympathetic to the professed goals of the Third Reich: Karl Adam, Karl Eschweiler, and Joseph Lortz. The other two, Romano Guardini and Engelbert Krebs, were publicly critical of the new regime. Interestingly, the two theologians who have had the greatest influence in the English-speaking world, Guardini and Adam, were initially on opposite sides of the Nazi divide."--BOOK JACKET.

443. Künzle, Anton and Gad Shimron. *The Execution of the Hangman of Riga : The Only Execution of a Nazi War Criminal by the Mossad*. Trans. by Uriel Masad. London ; Portland, OR: Vallentine Mitchell, 2004. Originally published as: *Hisul ha-talyan me-Rigah*.
SUMMARY: "An internationally acclaimed aviation pioneer, Herbert Cukurs, running a hydroplanes rental company out of Sao Paolo, Brazil, liked his new customer: an Austrian businessman, who asked for a short sightseeing flight. The pilot had no idea that his customer was not Austrian but a top agent in the Israeli Mossad, working undercover to set the trap for Cukurs - a criminal personally responsible for the murder of over 30,000 innocent Jews. This was the beginning of the 'war of wits' between the Nazi war criminal and the German-born Israeli (both of whose parents had perished in Nazi death camps). It was a unique duel, played out in the Sao Paolo residence of the Cukurs family, in the jungles of Brazil, by the lagoon of Porto Alegre and on the beautiful beaches of Punta del Este. In this book a former senior Mossad agent describes an operation carried out in 1964-65 to identify, locate and execute the notorious Nazi war criminal Herbert Cukurs, who was personally responsible for the murder of over 30,000 Latvian Jews. The main part of the operation was undertaken almost single-handedly by 'Anton Kuenzle'. He relates how he planned and carried out this risky operation, creating an identity as a successful businessman and offering Cukurs a lucrative deal to entice him away from his secure life in Brazil to a trap laid for him in Uruguay. There Cukurs met his fate at the hands of a Mossad hit team."--

448. Lagrou, Pieter. *The Legacy of Nazi Occupation : Patriotic Memory and National Recovery in Western Europe, 1945-1965*. Studies in the Social and Cultural History of Modern Warfare ; 8. Cambridge, U.K. ; New York: Cambridge University Press, 2000.

SUMMARY: "This volume examines how France, Belgium and the Netherlands emerged from the military collapse and humiliating Nazi occupation they suffered during the Second World War. Rather than traditional armed conflict, the human consequences of Nazi policies were resistance, genocide and labour migration to Germany. Pieter Lagrou offers a genuinely comparative approach to these issues, based on extensive archival research; he underlines the divergence between ambiguous experiences of occupation and the univocal post-war patriotic narratives which followed. His book reveals striking differences in political cultures as well as close convergence in the creation of a common Western European discourse, and uncovers disturbing aspects of the aftermath of the war, including post-war anti-Semitism and the marginalisation of resistance veterans. This book will be of central interest to all scholars and students of twentieth-century European history."--BOOK JACKET.

449. Lane, A. T. *Victims of Stalin and Hitler : The Exodus of Poles and Balts to Britain*. Houndmills, Basingstoke, Hampshire ; New York: Palgrave Macmillan, 2004.

SUMMARY: "Germany in 1945 was crammed with millions of people displaced by war, deportation, Nazi slave labour, and flight before the advance of the Red Army. Many of them, including Poles and the Baltic peoples of Estonia, Latvia and Lithuania, refused to return to their communist-controlled homelands. Simultaneously in Italy, the Middle East and Britain, there were more than 100,000 Polish military personnel under British command, along with their dependents. Most of these were survivors of the one and a half million Poles deported to Siberia by the Soviet security police. Based on official documents and the words of the survivors and their children, this book describes the brutal uprooting of these people, their subsequent terrible experiences in the Soviet and Nazi forced labour camps and prisons, and their ultimate settlement in Britain."--BOOK JACKET.

SUMMARY: "Bertel is twelve years old and living in Hindenburg, Germany, with her mother Ilona and her sister Eva. They are waiting for their American visas to arrive while making preparations to join Oskar in America. These plans are crushed in October 28 when the Nazis round up the Jews in Hindenburg, forcibly expelling Bertel and her family from Germany into Poland. For the next seven years, Bertel conceals her true identity. She learns to speak Polish, changes her appearance, and uses falsified documents. Living as a young Polish woman under an assumed name, she struggles to survive as she moves from town to town in Nazi-occupied Poland. Although at times there is the blessing of friendship and a helping hand, Bertel lives in constant fear of discovery and certain death. This is a story of faith, Providence, and the ability of a young girl to survive while hiding in plain sight, in the dark shadow of the Nazi death factory."--BOOK JACKET.

457. Lebert, Stephan and Norbert Lebert. *My Father's Keeper : Children of Nazi Leaders, an Intimate History of Damage and Denial*. Trans. by Julian Evans. 1st U.S. ed. Boston: Little, Brown, & Co., 2001. Originally published as: *Denn Du trägst meinen Namen*.
SUMMARY: "In 1959 the German journalist Norbert Lebert conducted extensive interviews with the sons and daughters of prominent Nazis: Hess, Bormann, Goring, and Himmler; Baldur von Schirach, creator of the Hitler Youth; and Hans Frank, governor of Poland. Then at the beginning of their adult lives, Lebert's subjects were the bearers of notorious names that made them outcasts to some, symbols of a lost glory to others. Forty years later, Lebert's son Stephan - also a journalist - tracked down these same men and women to find out what had become of them, how they remembered their fathers, and what effect the names they carried had on the paths they had taken. Lebert's account of his conversations, juxtaposed with his father's postwar interviews, gives us an extraordinary and unflinching look at how these individuals have coped with a horrifying heritage. The stories that emerge are fascinating, surprising, and often disturbing: The young man who refuses military service and is granted conscientious objector status on the grounds that his father is imprisoned by the state - as a Nazi war criminal. The boy who begins his education learning the principles of fascism, finishes it at a Catholic boarding school, and later becomes a priest and a missionary to Africa. The woman who was systematically refused work because she wouldn't use an alias, but who now lives in the suburbs under her husband's name and keeps secret contacts with other nostalgic Nazis. The journalist who writes a scathing magazine article reviling the father responsible for two million deaths, and is greeted with a barrage of letters from outraged Germans - whatever your father may have

done, the letters argue, fathers must always be honored."--BOOK JACKET.

459. Lehrer, Steven. *Hitler Sites : A City-by-City Guidebook (Austria, Germany, France, United States).* Jefferson, N.C: McFarland, 2002.

SUMMARY: "This work provides a unique service to historians by identifying over 150 places in Austria, Germany, France and the United States that are in some way associated with Adolf Hitler. The entry on Braunau am Inn (upper Austria) gives information on Hitler's birthplace, which is now a school for handicapped children. The entry for Klesheim Palace, built in 1700-1709 and renovated to Hitler's tastes for his guests, details such visitations as that of Benito Mussolini: On April 22, 1941, the two dictators met at the palace to discuss the Italian contribution to the war effort and German influence in Italy. Each entry contains background information on the site and Hitler's connection to it, including relevant biographical data. Much of the information is translated from German sources and has never been printed in English before. The sites are grouped within their cities and are thoroughly indexed for easy access to information on every site."--BOOK JACKET.

469. Lewy, Guenter. *The Nazi Persecution of the Gypsies*. Oxford ; New York: Oxford University Press, 2000.
SUMMARY: "In The Nazi Persecution of the Gypsies, Guenter Lewy draws upon thousands of documents - many never before published - from German and Austrian archives to create the most comprehensive and accurate picture available of the fate of the Gypsies under the Nazi regime. Lewy traces the escalating vilification of the Gypsies as the Nazis instigated a widespread crackdown on the "work-shy" and "itinerants." But he shows that Nazi policy towards Gypsies was confused and changeable. At first, local officials persecuted Gypsies, and those who behaved in gypsy-like fashion, for antisocial tendencies. Later, with the rise of race obsession, Gypsies were seen as a threat to German racial purity, though Himmler himself wavered, trying to separate out and save those he considered "pure Gypsies" descended from Aryan roots in India. Indeed, Lewy challenges much existing scholarship in showing that, however much the Gypsies were persecuted, there was no general program of extermination analogous to the "final solution" for the Jews."--BOOK JACKET.

482. Lower, Wendy and United States Holocaust Memorial Museum. *Nazi Empire-Building and the Holocaust in Ukraine*. Chapel Hill: University of North Carolina Press, 2005.
SUMMARY: "On 16 July 1941, Adolf Hitler convened top Nazi leaders at his headquarters in East Prussia to dictate how they would rule the newly occupied eastern territories. Ukraine, the "jewel" in the Nazi empire, would become a German colony administered by Heinrich Himmler's SS and police, Hermann Goring's economic plunderers, and a host of other satraps. Focusing on the Zhytomyr region and weaving together official German wartime records, diaries, memoirs, and personal interviews, Wendy Lower provides the most complete assessment available of German colonization and the Holocaust in Ukraine. Midlevel "managers," Lower demonstrates, played major roles in mass murder, and locals willingly participated in violence and theft. Lower puts names and faces to local perpetrators, bystanders, beneficiaries, as well as resisters. She argues that Nazi actions in the region evolved from imperial arrogance and ambition; hatred of Jews, Slavs, and Communists; careerism and pragmatism; greed and fear. In her analysis of the murderous implementation of Nazi "race" and population policy in Zhytomyr, Lower shifts scholarly attention from Germany itself to the eastern outposts of the Reich, where the regime truly revealed its core beliefs, aims, and practices."--BOOK JACKET.

488. ———. *The Hidden Hitler*. Trans. by John Brownjohn. New York, NY: Basic Books, 2001.
Originally published as: *Hitlers Geheimnis*.
SUMMARY: "Adolf Hitler. No other figure in contemporary history is associated with such far-reaching historical impact and such monstrous crimes. His name alone is emblematic of world war and Holocaust. If only because of the barbarity for which he is responsible, Adolf Hitler has become an anxiety neurosis, a vision of horror. And that is why he remains even now as he was

to many of his contemporaries: an incomprehensible mystery. In the half century since his death, he has been the subject of over 120,000 publications, and yet the historian John Lukacs, who has tried to impose some sort of order on the chaotic jumble, comes to the significant conclusion that "We are far from done with Hitler." What Hitler did in history has been amply documented in the monumental work of historians and biographers such as Alan Bullock, Joachim Fest, Hans Mommsen and Ian Kershaw. Who Hitler was, however, as a person, what anchored him emotionally, has either eluded or been of little interest to writers who often burden themselves with the search for the origin of his evil as the explanation for his life and its consequences. Drawing from a wealth of archival sources, much of which has been long overlooked by historians, *The Hidden Hitler* focuses on Hitler the man. Lothar Machtan's controversial thesis is that Adolf Hitler was homosexual, and that one cannot begin to understand him, his entry into politics, and the early Nazi movement without a clear understanding of this aspect of his identity."--BOOK JACKET.

496. Manz, Bruno. *A Mind in Prison : The Memoir of a Son and Soldier of the Third Reich*. 1st ed. Washington, D.C: Brassey's, 2000.

SUMMARY: "A Mind in Prison is a candid autobiographical examination of life in Nazi Germany and the powerful hold Nazi propaganda had on Germany's youth. It is rare to find such an eloquent,

frank, and truly remorseful account of the Nazi years by a German who made the tragic mistake of following Adolf Hitler. Bruno Manz recounts how a loving but pro-Nazi father and Hitler's spell-binding demagoguery moved him toward the fateful decision to join the Hitler Youth at age eleven, shortly before Hitler came to power. During World War II, Bruno Manz fought with the Luftwaffe, and later the German army, on the Arctic Ocean front against the Soviets. When he learned of the horrific Nazi crimes against humanity, he realized the enormity of the mistake he and fellow Germans had made in supporting Hitler. The utter devastation of his country, the guilt that Germans shared, and the deaths of so many people he knew changed his life forever. By plunging himself into academia, he escaped from the psychological and spiritual prison that had entrapped him for so many years. Then, in 1957, he left behind Germany as well when he emigrated to the United States as part of Project Paperclip, which brought German rocket scientists to work with Werner von Braun on the U.S. Army's ballistic missile program. *A Mind in Prison*, dedicated to the victims of the Nazis, is for anyone who seeks to understand how a civilized people could plunge into mass insanity."--BOOK JACKET.

497. Marianowicz, Antoni. *Life Strictly Forbidden*. The Library of Holocaust Testimonies. London ; Portland, OR: Vallentine Mitchell, 2004.

SUMMARY: "Life Strictly Forbidden is the memoirs of well-known Polish writer, Antoni Marianowicz, told partly through interviews with journalist Hanna Baltyn, and partly through personal recollections of his family before the War and during the Occupation. The Marianowicz family were wealthy bourgeoisie. But, at the age of 16, Antoni was forced to live in the Warsaw ghetto. After 18 months he fled from the ghetto and managed to survive for three years (1942-45) hiding out in a small provincial town near Warsaw where, paradoxically, he and other Jewish refugees hid in a glass factory that belonged to the Waffen-SS."--BOOK JACKET.

SUMMARY: "Surveying the expanding conflict in Europe during one of the famous fireside chats in 1940, President Franklin Roosevelt ominously warned that "we know of other methods, new methods of attack. The Trojan horse. The fifth column that betrays a nation unprepared for treachery. Spies, saboteurs, and traitors are the actors in this new strategy." Having identified a new type of war - a shadow war - being perpetrated by Hitler's Germany, FDR decided to fight fire with fire, authorizing the formation of the Office of Strategic Services (OSS) to organize and oversee covert operations. Based on an extensive analysis of OSS records, including the vast trove of records released by the CIA in the 1980s and '90s, as well as a new set of interviews with OSS veterans conducted by the author and a team of American scholars from 1995 to 1997, *The Shadow War Against Hitler* is the full story of America's far-flung secret intelligence apparatus during World War II."--BOOK JACKET.

511. Megargee, Geoffrey P. *Inside Hitler's High Command*. Modern War Studies. Lawrence: University Press of Kansas, 2000.
SUMMARY: "Inside Hitler's High Command reveals that while Hitler was the central figure in many military decisions, his generals were equal partners in Germany's catastrophic defeat. Megargee exposes the structure, processes, and personalities that governed the Third Reich's military decision making and shows how Germany's presumed battlefield superiority was undermined by poor strategic and operational planning at the highest levels. His study tracks the evolution of German military leadership under the Nazis from 1933 to 1945 and expands our understanding of the balance of power within the high command, the role of personalities in its organizational development, and the influence of German military intellectuals on its structure and function. He also shows how the organization of the high command was plagued by ambition, stubbornness, political intrigue, and overworked staff officers. And his "a week in the life" chapter puts the high command under a magnifying glass to reveal its inner workings during the fierce fighting on the Russian Front in December 1941."--BOOK JACKET.

516. Meyer, Walter and Matt Valentine. *Tomorrow Will be Better : Surviving Nazi Germany*. Columbia ; London: University of Missouri Press, 1999.
SUMMARY: How does a young German who has been a member of the Hitler Youth and has competed in Nazi-organized athletic competitions become, over the span of two years, an eighty-pound, tuberculosis-stricken concentration camp escapee? In this memoir, Walter Meyer leads readers from one harrowing moment to the next as he recounts his experiences during and after Hitler's reign. As a teenager, Meyer refused to conform to institutional rules. While serving in the Hitler Youth, he rebelled by joining a subversive group that focused its efforts on pranks against the youth organization. During World War II, Meyer was arrested, interrogated, and beaten for stealing shoes, but he received a sentence of one to four years, as opposed to the standard penalty for looting - death. His fiery spirit eventually landed him in a Nazi work camp. Forced to

work under grueling conditions in a quarry, he struggled to reach his daily work quota so he could dine on watery broth and bits of bread. In these subhuman conditions, Meyer developed tuberculosis. Knowing he would soon die in the camp, he again plotted his escape. This time he succeeded. Meyer then began a whirlwind odyssey, ducking into train cars and stowing away on ships, occasionally landing in jail for traveling without a passport - from France to Spain, Belgium to Holland, and finally to South America - in pursuit of something other than the aftermath of war. Meyer's memoir gives insight into the climate in Germany during World War II and in the defeated nation after the war. His experience as a non-Jewish survivor of the Nazi concentration camps provides an enlightening and varied perspective to the Holocaust dialogue.

SUMMARY: "This work "browses" into Hitler's library: it investigates the collection by shedding new light on the readings and reading habits of Hitler, and presents a comprehensive picture of the origins of the era's dominant ideals and their influence on the Nazi ideology. How and why did such rabble obtain such immense power? How did the cult of the self and the cult of the individual become indivisibly intertwined with an exalted death cult and fear of death simultaneously? The book describes the Gnostic character of the phenomenon as an explication of the success of Nazism and that of the Hitler myth and challenges the static views of traditional historiography."--BOOK JACKET.

534. Mommsen, Hans and Angus McGeoch. *Alternatives to Hitler : German Resistance Under the Third Reich*. Trans. by Angus McGeoch. Princeton: Princeton University Press, 2003. Originally published as: *Alternative zu Hitler*.
SUMMARY: "Internal opposition to Nazism is often mythologized as heroic or dismissed as "too little, too late, and for the wrong reasons." These seminal writings trace the real and complex history of the German Resistance from the ascent of the Nazi Party to the July 1944 attempted assassination of Hitler. Informed by four decades of research and written by the premier historian of the German Resistance, this book constitutes the definitive work on those tens of thousands of Germans who fought the Third Reich from within. Hans Mommsen considers the full spectrum of opposition, from small but still-dangerous acts of political disobedience to large-scale conspiracies to overthrow the government. Along the way he tells the incredible stories of such Germans as Count Claus von Stauffenberg, who planted a briefcase bomb during a staff meeting at Hitler's East Prussian military headquarters, and the members of the Kreisau Circle, who clandestinely met to plan for Germany's postwar future as a democratic member of an integrated Europe. While upholding resistance to Nazism as a value beyond reproach, Mommsen considers the varied and sometimes murky motive of those who resisted - motives that ranged from principles commitment to pragmatic self-interest by former Nazi sympathizers. He examines resisters' detailed and not-always-democratic programs to rebuild a state and reeducate a Nazified society and considers their sometimes ambivalent attitudes toward the unfolding Final Solution."--BOOK

551. *Der Führer Schenkt Den Juden Eine Stadt*. 1 videodisc (25 min.). Directed by National Center for Jewish Film. Waltham, Mass: National Center for Jewish Film, 2005.
SUMMARY: "This is the only film known to be made by the Nazis inside an operating concentration camp. Germany's Ministry of Propaganda produced this 1944 film about Theresienstadt, the "model" ghetto established by the Nazis in 1941 in Terezin, a town in the former Czechoslovakia. Goebbles intended to use the film to prove to the International Red cross and the world that Jews were being well-treated in the camps. The film, however, is an elaborately staged hoax presenting a completely false picture of camp life. Upon completion, the director and most of the cast of prisoners were shipped to Auschwitz. Only a few survived to attest to the falsity of the film."

559. Nicholas, Lynn H. *Cruel World : The Children of Europe in the Nazi Web*. New York: A.A. Knopf, 2005.

SUMMARY: "To be a child in mid-twentieth-century Europe was to be not a person but an object, available for use in the service of the totalitarian state. Very soon after Adolf Hitler came to power, policies of eugenic selection and euthanasia began to weed ill or disabled children out of the New Order by poison, gas, and starvation. Defect-free "good blood" children were subjected to an "education" based on racism, propaganda, and the glorification of the Fuhrer, and were deliberately deprived of free time that would allow independent thought or action. To research this story Lynn Nicholas has delved into the governmental and military archives of many nations, and has interviewed countless individuals. She shows the relationship of the deadly Nazi policies to the brutal tactics used in the USSR in the 1930s and to their rehearsal in the Spanish Civil War, and describes the abject failure of Hitler's campaign to plant Germanizing colonies in the conquered nations. She gives us the stories of survivors of ghastly war-spawned famines - in Greece and Russia in the 1940s, Holland in the "Hunger Winter" of 1945, and Berlin in the Airlift year of 1949- and of British, French, and Dutch children who were evacuated to the countryside; boys and girls sent alone from Europe to England on the Kinder transports; the teenaged soldiers of the Reich; the small veterans of the quarries, the factories, and the camps as well as those who survived in lonely hiding. In *Cruel World* Lynn Nicholas shows us clearly, and with passionate empathy for the innocent victims, the crimes against children that inevitably result when ideology overwhelms humanity. This book, as it recounts the waking nightmare that enmeshed the lives of Europe's boys and girls, bears witness to our own responsibility to the children of the twenty-first century."--BOOK JACKET.

560. Nicholls, Anthony James. *Weimar and the Rise of Hitler*. The Making of the 20th Century. 4th ed. New York: St. Martin's Press, 2000.

SUMMARY: "This account of the Weimar Republic's history begins with Germany's defeat in 1918 and the revolutionary disturbances which followed the collapse of Kaiser Wilhelm II's empire. It analyses the structure of the Republic, noting the strengths and weaknesses of the new regime. It evaluates the importance of inflation in the early 1920s and depression after 1929. Adolf Hitler's career is traced from its early beginnings in Munich, and the nature of his movement is assessed. Although giving due weight to economic and social factors, the author remains convinced that political rather than economic causes lay at the root of Weimar's failure. It was the political legacy of the Wilhelmine Empire which was to prove so damaging to the Weimar Republic in the years 1918-1933. The book is designed to serve both as an introduction for readers unfamiliar with the Weimar Republic and as a stimulus for those who wish to deepen their knowledge of the period. For the fourth edition numerous revisions and additions have been made to take account of advances in research since the last edition was published."--BOOK JACKET.

564. Nitecki, Alicia and Jack Terry. *Jakub's World : A Boy's Story of Loss and Survival in the Holocaust*. Albany: State University of New York Press, 2005.
SUMMARY: "When German troops come to the small village of Belzyce, Poland, in 1939, nine-year-old Jakub Szabmacher's world is forever changed. At first the humiliations inflicted by the Germans seem small, but the conditions worsen until eventually Jakub's family and much of his village are murdered, and he is sent to various concentration camps in Poland and Germany, where he struggles to survive the terrible conditions of camp life. Finally liberated in 1945 from the concentration camp in Flossenbug, Germany, Jakub is befriended by American troops and with their help brought to the United States, where he takes the name Jack Terry. Coauthor Alicia Nitecki, whose grandfather was also imprisoned at Flossenbug, uses Terry's personal memories to tell young Jakub's story, as well as unpublished memoirs, private letters, and interviews with former inmates of the Flossenbug concentration camp and the townspeople of Belzyce and Flossenbug. Part history, part autobiography, Jakub's World offers an anguished young boy's perspective on the Holocaust."--BOOK JACKET.

570. O'Driscoll, Mervyn. *Ireland, Germany and the Nazis : Politics and Diplomacy, 1919- 1939*. Cork Studies in Irish History ; 3. Dublin ; Portland, OR: Four Courts Press, 2004.
SUMMARY: "This is a study of Irish-German relations during the tumultuous years between the two World Wars. It is based on extensive research in Irish, British and German archives. Contrary to popular perception, Irish-German relations occupied a central role in the making of the Irish state. Irish nationalism owed an enormous debt to German scholars who pioneered the systemic

study of the Irish language and Celtic Studies. German firms proved vital to the modernization of the Irish economy. This book places the bilateral Irish-German relationship in the context of the Irish state's pursuit of an independent foreign policy from Britain."--BOOK JACKET.

599. Pfrengle, Hermann O. and Wilbur D. Jones. *Forget that You have been Hitler Soldiers : A Youth's Service to the Reich*. Shippensburg, PA: Burd Street Press, 2001.

SUMMARY: "Hermann Pfrengle's World War II memoir describes in detail the unorthodox life and travails of an adolescent German boy on the war-scarred home front. As a member of the Jungvolk, a group loosely associated under the Hitler Youth organization, he helped construct the Siegfried Line, dodged bombs and cleared rubble with civilian defense, and worked in the war effort. A high-school student near Mainz on the Rhine River until his school was bombed, he rose in leadership positions while experiencing his country's deteriorating fortunes. The book focuses on people and human-interest subjects, not the war itself, supplemented by five maps and some 25 personal photographs. To aid the reader, the authors provide an introduction to the German involvement in the war, Wehrmacht organization, the land campaigns in Europe, and a glossary, index, and bibliography. Hermann Pfrengle's memoir adds an in-depth perspective to life on the German home front and the service of youth to the Third Reich."--BOOK JACKET.

611. Poprzeczny, Joseph. *Odilo Globocnik, Hitler's Man in the East*. Jefferson, N.C. ; London: McFarland, 2004.
SUMMARY: "Odilo Globocnik, a collaborator of Adolf Hitler and Heinrich Himmler, was responsible for the deaths of at least 1.5 million people in three Nazi camps in occupied Poland: Treblinka, Sobibor, and Belzec. Along with Rudolf Hoss, Globocnik may be named as one of the first industrial-style killers in history. Betraying his homeland by conspiring with Hitler to destroy Austria's independence, he played a pivotal role in Aktion Reinhardt, directing the entire program from early 1942 until September 1943. By the winter of 1943 nearly all of the Jews of Globocnik's Lublin Distrikt had been exterminated, leaving only skilled laborers used in Globocnik's industrial conglomerates. His ethnic cleansing teams, assisted by Ukranian policing units, also cleared the Polish peasant farmers from the Zamosc Lands. Very little has been published on Globocnik, most especially the four years he spent in Lublin. This authoritative biography, relying on exhaustive

research including interviews and primary documents, details every aspect of his life. Rare photographs, many from the collection of Irmgard Rickheim, Globocnik's lover, complement the text."--BOOK JACKET.

612. Portelli, Alessandro. *The Order has been Carried Out : History, Memory, and Meaning of a Nazi Massacre in Rome*. 1st Palgrave Macmillan ed. New York ; Houndmills, England: Palgrave Macmillan, 2003.

SUMMARY: "On March 24, 1944, Nazi occupation forces killed 335 unarmed civilians in Rome in retaliation for a partisan attack the day before. *The Order Has Been Carried Out* is an oral history of the massacre, of its background and its aftermath. The moving stories of the victims, of the women and children who survived and carried on, of the partisans who fought the Nazis, of the common people who lived through the tragedies of the war, paint a many-hued picture of more than a century in the history of one of the world's most richly historical cities. These narratives, woven together by one of the foremost practitioners of oral history, tell of the struggles for freedom under Fascism and Nazism, of the battles for memory in Italy's postwar democracy, and of the meanings of death and grief in modern society."--BOOK JACKET.

622. Read, Anthony. *The Devil's Disciples : Hitler's Inner Circle*. 1st American ed. New York ; London: W.W. Norton, 2004.
 SUMMARY: "The Nazi regime was essentially a religious cult relying on the hypnotic personality of Adolf Hitler, and it was fated to die with him. But while it lasted, his closest lieutenants competed ferociously for power and position as his chosen successor. This peculiar leadership dynamic resulted in millions of deaths and some of the worst excesses of World War II. The Devil's Disciples is the first major book for a general readership to examine those lieutenants, not only as individuals but also as a group. It focuses on the three most important Nazi paladins - Goring, Goebbels, and Himmler - with their nearest rivals - Bormann, Speer, and Ribbentrop - in close attendance. Others who were removed in various ways - like Gregor Strasser, Ernst Rohm, Heydrich, and Hess - play supporting roles. Making the fullest use of diaries, documents, and memoirs, The Devil's Disciples offers fresh insights into their characters and their relationships to one another and to Hitler. Perceptive, illuminating, and grandly ambitious, The Devil's Disciples is above all a powerful chronological narrative, showing how the personalities of Hitler's inner circle developed and how their jealousies and constant intrigues affected the regime, the war, and Hitler himself. It is essential reading for anyone with an interest in the Nazi period, or the workings of a dictatorship."--BOOK JACKET.

628. Reiter, Margit. *Die Generation Danach : Der Nationalsozialismus Im Familiengedächtnis.*

Innsbruck: StudienVerlag, 2006.

SUMMARY: "Der Nationalsozialismus ist in Deutschland und Österreich Teil jeder Familiengeschichte. Die Zeithistorikerin Margit Reiter untersucht nun erstmals, wie der Nationalsozialismus in Österreichischen Nachkriegsfamilien erinnert und an die nachfolgende Generation weiter gegeben wurde. Sie stellt fest: In den Familien wurde keineswegs nur geschwiegen. Was aber wurde erzählt, wie wurde darüber gesprochen - und was wurde ausgeblendet und tabuisiert? Das Familiengedächtnis und der Öffentliche NS-Diskurs haben die Vorstellungswelt der zweiten Generation nachhaltig geprägt. Was wissen die Nachkommen eigentlich über ihre Väter und Mütter im Nationalsozialismus, wie gehen sie heute mit deren (potenzieller) Täterschaft um? Die Autorin hat 'Kinder der Täter' interviewt und die vielfältigen Formen des Umgangs mit dem familiären NS-Erbe - von kritischer Distanzierung über Verständnis bis hin zu reflexartiger Verteidigung - aufgezeigt und analysiert. Gerade die Tatsache, dass diese 'Generation danach' den allgemeinen Diskurs über die NS-Vergangenheit seit Jahren massgeblich mitbestimmt, unterstreicht die gesellschaftspolitische Relevanz dieses Buches."

632. Rhodes, Richard. *Masters of Death : The SS-Einsatzgruppen and the Invention of the Holocaust.* 1st ed. New York: Alfred A. Knopf : Distributed by Random House, 2002.

SUMMARY: "In Masters of Death, Richard Rhodes gives full weight, for the first time, to the part played by the Einsatzgruppen - the professional killing squads deployed in Poland and the Soviet Union, early in World War II, by Himmler's SS. And he shows how these squads were utilized as the Nazis made two separate plans for dealing with the civilian populations they wanted to destroy. Drawing on Nuremberg Tribunal documents largely ignored until now, and on newly available material from eyewitnesses and survivors, Richard Rhodes has given us a book that is essential reading on the Holocaust the World War II."--BOOK JACKET.

CALL NUMBER: D804.3 .R53 2002

633. Rhys-Jones, Graham. *The Loss of the Bismarck : An Avoidable Disaster.* Annapolis, Md: Naval Institute Press, 1999.

SUMMARY: "The battleship Bismarck, flagship of the German Fleet and one of the world's most formidable warships, was sunk by the British Home Fleet in May 1941 - just seven days out on her first operational voyage. In this new study, drawing on a wide range of sources, Graham Rhys-Jones explores the strategic background to the disaster, and the pursuit itself, to establish what went wrong and who was to blame. He puts a spotlight on the blind choreography of the search and chase at sea, on the stresses of high command, and on the desperate attempts by

each side to read the other's mind. In the end, immobilised by the Ark Royal's Swordfish torpedo bombers and surrounded by a dozen British ships, the Bismarck sank, fighting to the last and taking 2,000 men down with her."--BOOK JACKET.

636. Rigg, Bryan Mark. *Rescued from the Reich : How One of Hitler's Soldiers Saved the Lubavitcher Rebbe*. New Haven Conn. ; London: Yale University Press, 2004.

SUMMARY: "When Hitler invaded Warsaw in the fall of 1939, hundreds of thousands of civilians - many of them Jewish - were trapped in the besieged city. The Rebbe Joseph Schneersohn, the leader of the ultra-Orthodox Lubavitcher Jews, was among them. Followers throughout the world were filled with anguish, unable to confirm whether he was alive or dead. Working with officials in the United States government, a group of American Jews initiated what would ultimately become one of the strangest - and most miraculous - rescues of World War II. The escape of Rebbe Schneersohn from Warsaw has been the subject of speculation for decades. Historian Bryan Mark Rigg has now uncovered the true story of the rescue, which was propelled by a secret collaboration between American officials and leaders of German military intelligence. Amid the fog of war, a small group of dedicated German soldiers located the Rebbe and protected him from suspicious Nazis as they fled the city together. During the course of the mission, the Rebbe learned the shocking truth about the leader of the rescue operation, the decorated Wehrmacht soldier Ernst Bloch: he was himself half Jewish, and a victim of the rising tide of German anti-Semitism."--BOOK JACKET.

637. ——. *Hitler's Jewish Soldiers : The Untold Story of Nazi Racial Laws and Men of Jewish Descent in the German Military*. Modern War Studies. Lawrence: University Press of Kansas, 2002.

SUMMARY: "Contrary to conventional views, Rigg reveals that a startlingly large number of German military men were classified by the Nazis as Jews or "partial-Jews" (Mischlinge), in the wake of racial laws first enacted in the mid 1930s. He demonstrates that the number was much higher than previously thought - perhaps as many as 150,000 men - including decorated veterans and high-ranking officers, even generals and admirals. As Rigg fully documents for the first time, a great many of these men did not consider themselves Jewish and had embraced military life as devoted patriots eager to serve a revived German nation. In turn, they had been fully absorbed into the German armed forces, which prior to Hitler had given little thought to the "race" of these men but which now was forced to examine the ancestry of its soldiers. Based on deep and wide-ranging research in archival and secondary sources, as well as extensive interviews with more than four hundred Mischlinge and their relatives, Rigg's study breaks new ground in a crowded field and presents yet another angle on the extremely flawed, dishonest, demeaning, and tragic essence of Hitler's rule."--BOOK JACKET.

644. Roseman, Mark. *The Wannsee Conference and the Final Solution : A Reconsideration*. 1st ed. New York: Metropolitan Books, 2002.
SUMMARY: "In early 1947, American officials in Germany stumbled across a document. Headed "Secret Reich matter," it summarized the results of a meeting of top Nazi officials that took place on January 20, 1942, in a grand villa on the shore of Berlin's Lake Wannsee. On one level, this document offered clarity: known as the Wannsee Protocol (and included here in full), it tallied up the Jews in Europe, carefully classified half and quarter Jews, and above all laid the groundwork for a "final solution to the Jewish Question." Yet the Protocol, among the most shameful documents in history, remains deeply puzzling. How can we understand this businesslike discussion of genocide? And why was the meeting necessary? Hundreds of thousands of Jews had already been shot by squads in Russia or gassed in the camp at Chelmno. Test murders had been carried out in Auschwitz. Indeed, the most remarkable thing about the Wannsee Conference is that we do not know why it took place."--BOOK JACKET.

645. Rosenfeld, Gavriel David. *The World Hitler Never Made : Alternate History and the Memory of Nazism*. Cambridge, UK ; New York: Cambridge University Press, 2005.
SUMMARY: "Gavriel D. Rosenfeld's pioneering study explores why counterfactual questions on the subject of Nazism have proliferated in recent years within Western popular culture. Examining a wide range of novels, short stories, films, television programs, plays, comic books, and scholarly essays that have appeared in Great Britain, the United States, and Germany since 1945, Rosenfeld shows how the portrayal of historical events that never happened reflects the evolving memory of the Third Reich's real historical legacy. He concludes that the shifting representations

of Nazism in works of alternate history, as well as the popular reactions to them, highlights their subversive role in promoting the normalization of the Nazi past in Western memory."--BOOK JACKET.

646. Rosmus, Anna and Imogen von Tannenberg. *Wintergreen : Suppressed Murders*. Trans. by Imogen von Tannenberg. Columbia, S.C: University of South Carolina Press, 2004. Originally published as: *Wintergrün*.

SUMMARY: "With the same commitment to exposing Nazi crimes that has made her books *Against the Stream* and *Out of Passau* so widely read, Anna Elisabeth Rosmus uncovers the wartime fate of foreign workers, their children, prisoners of war, and Jewish citizens in *Wintergreen: Suppressed Murders*. The renowned human rights activist recounts a horrific story of slave labor, forced abortions, and mass murder that took place in and around her Bavarian hometown. Until Rosmus began her work, the citizens of the region had successfully avoided acknowledging these atrocities for decades. In *Wintergreen*, Rosmus documents the treatment of women from Poland, Russia, Ukraine, and other Eastern European countries who were deported to Germany and put to work as forced laborers. She tells how doctors performed abortions - at times without anesthesia - on these women despite the illegality of such practices for German women and strong opposition by the local and highly influential Roman Catholic church. Rosmus describes the mistreatment of infants in so-called children's homes, where they were intentionally fed spoiled food and the mortality rates were notoriously high. With an impending German surrender, Passau and its environs witnessed additional carnage. Rosmus sheds light on the united effort of the Hitler Youth, secret police, militia, and German Wehrmacht to massacre thousands of Russian prisoners of war who were being held in the region. The Nazis and their sympathizers forced some prisoners to dig their own graves before being shot; others they threw into the Inn River to drown. In nearby Pocking-Waldstadt, Nazis murdered Jews held in a concentration subcamp, dumping some bodies from moving trains and placing others in hastily dug graves. As disturbing as these crimes are, just as unsettling is the local population's ability to gloss over these acts or to believe that they never happened at all."--BOOK JACKET.

CONTENTS: Mass murder of the "offspring of alien descent" -- The Plattling camp -- The murdered Russians -- Pocking Waldstadt.

648. Rossino, Alexander B. *Hitler Strikes Poland : Blitzkrieg, Ideology, and Atrocity*. Modern War Studies. Lawrence, Kan: University Press of Kansas, 2003.

SUMMARY: "Usually given short shrift in most histories of World War II, the invasion of Poland was more than a series of opening salvos; it was a testing ground for German brutalities to come. In this first intensive study of the invasion, Alexander Rossino provides a comprehensive study of the Polish campaign, including disturbing new insights into its racist and ideological underpinnings. Rossino tells how this invasion melded the ideology of the Nazi Party with Germany's military yearning for empire in the East. The Polish campaign was important as the first step in Hitler's drive for "living space" for Germans in Eastern Europe, and as the blitzkrieg decimated urban residential areas, civilians soon became indistinguishable from combatants. In addition to describing military operations, Rossino also provides a close analysis of SS plans to murder Polish leaders, German army reprisal policies, and the close collaboration of Wehrmacht

and SS forces in the subjugation and execution of Polish citizens. Rossino considers both top-level decision making and the experiences of German soldiers as he explores the mentality of those who perpetrated crimes against civilians. He particularly investigates the links between Nazi racial-political policies and military action to show that Poland was merely the German army's dress rehearsal for the later slaughter of other Slavs and Jews during the Russian campaign. By providing a detailed examination of atrocities committed by both military and SS personnel, he shows that the Wehrmacht's criminality was clearly evident at the beginning of the war."--BOOK JACKET.

656. Saidel, Rochelle G. *The Jewish Women of Ravensbrück Concentration Camp*. Madison, Wisc: University of Wisconsin Press, 2004.

SUMMARY: "Ravensbrück was the only major Nazi concentration camp for women. Located about fifty miles north of Berlin, the camp was the site of murder by slave labor, torture, starvation,

shooting, lethal injection, "medical" experimentation, and gassing. Although this camp was designed to hold 5,000 women, the actual figure was six times this number. Between 1939 and 1945, 132,000 women from twenty-three countries were imprisoned in Ravensbruck, including political prisoners, Jehovah's Witnesses, "asocials" (including Gypsies, prostitutes, and lesbians), criminals, and Jewish women (who made up about 20 percent of the population). Only 15,000 survived. Drawing on more than sixty narratives and interviews of survivors in the United States, Israel, and Europe as well as unpublished testimonies, documents, and photographs from private archives, Rochelle Saidel provides a vivid collective and individual portrait of Ravensbruck's Jewish women prisoners. She worked for over twenty years to track down these women whose poignant testimonies deserve to be shared with a wider audience and future generations. Their memoirs provide new perspectives and information about satellite camps (there were about 70 slave-labor sub-camps). Here is the story of real daily camp life with the women's thoughts about food, friendships, fear of rape and sexual abuse, hygiene issues, punishment, work, and resistance. Saidel includes accounts of the women's treatment, their daily struggles to survive, their hopes and fears, their friendships, their survival strategies, and the aftermath."--BOOK JACKET.

CALL NUMBER: DD247.S287 2007

659. Sax, Boria. *Animals in the Third Reich : Pets, Scapegoats, and the Holocaust.* New York: Continuum, 2000.

SUMMARY: "This is the first book to explore the paradox of the Nazi cult of animals and the obsession with the annihilation of "biologically inferior" people. *Animals in the Third Reich* begins by contrasting Jewish, Christian, and polytheistic traditions relating to animals in Germany, and examines the ways that the Nazi movement adopted, altered, challenged, or exploited these traditions. This discussion covers several perspectives on the treatment of animals, including those of zoologists, veterinarians, novelists, painters, sculptors, and the general public. Adopting and exploiting such traditions, the Nazis elaborated their own symbolic system of relating certain animals to supporters and antagonists of the movement - Aryan wolves and horses; Jewish pigs and apes."--BOOK JACKET.

660. Sayer, Ian and Douglas Botting. *The Women Who Knew Hitler : The Private Life of Adolf Hitler.* 1st Carroll & Graf ed. New York: Carroll & Graf, 2004.

SUMMARY: "From eye-witness accounts, interrogation reports, personal confessions and hitherto unknown private papers, Douglas Botting and Ian Sayer, acknowledged experts of Nazi history, present an extraordinary and detailed portrait of the Fuhrer's love life, with all its complexities and inadequacies, its alternating tenderness and aberrations. The authors succeed in shedding fresh light on one of the most hated and despised figures of the twentieth century."--BOOK JACKET.

662. Scalia, Joseph M. *Germany's Last Mission to Japan : The Failed Voyage of U-234*. Annapolis, MD: Naval Institute Press, 2000.
SUMMARY: "When U-234 slipped out of a Norwegian harbor on her maiden voyage in March 1945, the submarine carried a precious assortment of armaments and a select group of officials destined for Japan. Word that Germany had surrendered came en route, and the boat's commander, Johann Heinrich Fehler, suddenly found himself in a rogue submarine. U-234 was not only loaded with the most technically advanced weaponry and electronic detection devices of the era, but also two Japanese naval officers still at war with the Allies who preferred death to surrender. This dramatic account of the fateful voyage offers an intriguing look at the individuals involved. Until now, the legacy of U-234 has centered on her ominous cargo, including 560 kilograms of uranium oxide, the presence of which has been the focus of countless theories and much conjecture. With this book Joseph Mark Scalia argues that the submarine's value was not her cargo but rather the individuals accompanying the material to Japan."--BOOK JACKET.

700. Schreiber, Marion. *The Twentieth Train : The True Story of the Ambush of the Death Train to Auschwitz.* Trans. by Shaun Whiteside. 1st American ed. New York: Grove Press, 2003. Originally published as: *Stille Rebellen.*
SUMMARY: "The spring of 1943 was a desperate season for the Jews of Brussels. The resistance movement had successfully bombed the SS headquarters that January, but anti-Jewish laws were tightening, and a camp had been set up in the nearby town of Mechelen (dubbed the "ante-chamber of death") to transport Belgian Jews to Auschwitz. The time had come for action. One day in April, resistance fighter Youra Livchitz, a young doctor, discovered the departure date of the next transport train. With only one weekend in which to organize a raid, Youra recruited two school friends, Jean Franklemon and Robert Maistriau, to pull off one of the most daring rescues

of the entire war. Equipped with only three pairs of pliers, a hurricane lamp covered in red paper, and a single pistol, the men ambushed the train, which was transporting 1,618 Jews to Auschwitz. These three lone men freed 17 men and women before the German guards opened fire. Miraculously, by the time the convoy had reached the German border another 225 prisoners had managed to escape unharmed and found shelter with the locals. In a testament to the solidarity of the Belgians, none of the escapees were betrayed. Yet the three young rescuers shared a different fate, ending for them in concentration camps and, for one, death. Marion Schreiber's gripping book about the only Nazi death train in World War II to be ambushed draws on private documents, photographs, archive material, and police reports, as well as original research, including interviews with the surviving escapees. Like Schindler's List, *The Twentieth Train* creates a vivid, moving portrait of heroism under impossible circumstances."--BOOK JACKET.

714. Shore, Zachary. *What Hitler Knew : The Battle for Information in Nazi Foreign Policy*. Oxford ; New York: Oxford University Press, 2003.
SUMMARY: "What Hitler Knew is an incisive study of how the climate of fear in Nazi Germany influenced Hitler's advisers and shaped the decision-making process. Zachary Shore argues persuasively that the inherent instability of the Third Reich led its diplomats to manage and control their "information arsenal" with obsessive intensity, in a desperate battle to defend their positions and safeguard their lives. The result, Shore concludes, was a chaotic flow of information between Hitler and his advisers that may have accelerated the march toward war. In the process of tracing how information traveled in the corridors of Nazi power, Shore discovers surprising new facts relating to Hitler's major foreign policy decisions, from his seizure of power right up to the hours before the outbreak of war. Drawing on multinational primary research, including records from the KGB archives, Shore provides fresh insights into Hitler's daring recapture of the Rhineland, Germany's dramatic decision to align with Poland, the intrigues over arms deals with Ethiopia, and the fall of Hitler's first foreign minister. He also offers new and provocative interpretations of Stalin's decision to sign the Nazi-Soviet pact, and Chamberlain's intentions for a

non-aggression pact with Hitler. Zachary Shore takes the reader into the tortured, uncertain world of the Nazi hierarchy, telling for the first time the compelling story of What Hitler Knew."--

730. Spicer, Kevin P. *Resisting the Third Reich : The Catholic Clergy in Hitler's Berlin*. DeKalb, Ill: Northern Illinois University Press, 2004.

SUMMARY: "When Nazism swept Germany, how did religious leaders respond to attacks not only on their fellow citizens and their government but on their faith as well? Despite charges of complacency, most of the Catholic clergy of the Berlin diocese in fact maintained a quiet resistance to the Nazi regime by offering their parishioners an alternative to National Socialism. In thus broadening the definition of resistance, Kevin Spicer shows why Nazism was so powerfully alluring in the first place. It provided - indeed demanded - a total way of life, encompassing rituals and social belonging, personal identity and charismatic leadership, moral values and a sense of purpose. In a word, it was a religion. Spicer juxtaposes Catholicism and Nazism to provide a clear, balanced understanding of the challenges the clergy faced simply by celebrating the sacraments and teaching the faithful. By following individual priests in their day-to-day ministries, he documents how effectively they guarded their flock from a predatory ideology. Along the way, he highlights the leadership of Bishop Konrad von Preysing of Berlin, who enabled the diocesan clergy to speak out against Nazi violations of Catholic doctrine and practice, and Monsignor Bernhard Lichtenberg, who was sentenced to prison for publicly praying for Jews and other victims of Nazi oppression. Yet the clergy's opposition to Nazism did not, for the most part, inspire them to act on behalf of the oppressed. Spicer explores the reasons why one group - the so-called "Brown Priests" - even chose to support National Socialism and what that choice meant for the Church. Resisting the Third Reich will appeal to historians, religious studies scholars, and readers with an interest in Germany during World War I and in the Catholic tradition."--BOOK JACKET.

731. Spitz, Vivien. *Doctors from Hell : The Horrific Account of Nazi Experiments on Humans*. 1st Sentient Publications ed. Boulder, Colo: Sentient Publications, 2005.

SUMMARY: "This is a story of human depravity and ultimate justice, told for the first time by an

eyewitness - a court reporter for the Nuremberg war crimes trial of Nazi doctors. This is the account of torture and murder by experiment in the name of scientific research and patriotism. Doctors from Hell includes trial transcripts that have not been easily available to the general public and previously unpublished photographs used as evidence in the trial."--BOOK JACKET.
CALL NUMBER: R853.H8 S68 2005

732. Spotts, Frederic. *Hitler and the Power of Aesthetics*. Woodstock, NY: Overlook Press, 2003.
SUMMARY: "In a remarkable synthesis of key scholarship and historical resources, Frederic Spotts portrays the "National Socialist revolution" as much less a social than a cultural revolution. Spotts maintains that Hitler viewed himself first and foremost as an artist, that his activities were largely directed to the promotion of the arts, and that his driving ambition was to create a supreme culture state, while at the same time using the arts to disguise the heinous crimes that were the means to fulfilling his ends. Unlike the traditional biographical view that Hitler was an "unperson," who had no life outside politics, Spotts, author of the distinguished Bayreuth: A History of the Wagner Festival, shows that Hitler's interest in the arts was as intense as his racism. Spotts offers the first analysis of Hitler's own work as a painter as well as of his art collection - one Hitler intended to make the finest in the world. Spotts's argument is punctuated with evocative photographs and reproductions from Hitler's 1925 sketchbook. Hitler's vision of the Aryan super-state was, as Spotts points out, to be expressed as much in art as in politics. Culture was not only the end to which power should aspire, but the means of achieving it. This fundamental assessment of Hitler's career and artistic life in the Third Reich boldly shows how the arts were at the center of his life and that he was at the center of the arts. He dissolved the line between art and politics and - through the notorious spectacles, parades, festivals, films, rallies, Wagner's operas and (late in life) Lehar's operettas, political theatrics, monumental architecture, even the autobahn and the Volkswagen - turned the entire German populace into participants in his National Socialist drama. A revealing, detailed, and highly conceptual work, *Hitler and the Power of Aesthetics* provides an additional key to an understanding of the Third Reich - in many ways the key to the first lock on the first door. It has, until now, been only noted in the more speculative psychological portraits, biographies, and straightforward histories of the Third Reich."--BOOK JACKET.

752. Stibbe, Matthew. *Women in the Third Reich*. London; New York: Arnold; Co-published in the United States of America by Oxford University Press, 2003.
SUMMARY: "Women in the Third Reich takes a fresh and critical look at the work of recent experts on the social history of the Third Reich and, in particular, highlights the role of women as actors on the historical stage. Included is a critical discussion of the legacy of the Nazi regime for women and the women's movement in post-1945 Germany. A variety of previously unavailable primary sources (including party records, newspaper articles and women's testimonies and memories) are used, making Women in the Third Reich essential reading for anyone interested in the social history of Nazi and post-war Germany."--BOOK JACKET.

755. Stone, Dan. *Responses to Nazism in Britain, 1933-1939 : Before War and Holocaust*. Houndmills, Basingstoke, Hampshire England ; New York: Palgrave Macmillan, 2003.
SUMMARY: "How was Nazism discussed in the 1930s? Studies of the period have traditionally focused on the politics of appeasement, on British and German foreign policy, or on the British Union of Fascists. Through a study of a large body of neglected literature, Responses to Nazism in Britain, 1933-1939 reveals that a far broader range of responses was made and debated. From remarkably sophisticated philosophical analyses to pro-Nazi apologies, with all shades of opinion in between, the British reading public was presented with a picture of Nazism that was, if anything, more advanced than that put forward by the government and its main supporters in the press. Combining history of ideas and cultural history, the author suggests that, before the war and the Holocaust, not a day went by when the shape and substance of British cultural and political debates were not informed by what was happening in Germany."--BOOK JACKET.

775. Tent, James F. *In the Shadow of the Holocaust : Nazi Persecution of Jewish- Christian Germans*. Modern War Studies. Lawrence, Kan: University Press of Kansas, 2003.

SUMMARY: "The Halbjuden of Hitler's Germany were half Christian and half Jewish but, like the rest of the Mischlinge (or "partial-Jews"), were far too Jewish in the eyes of the Nazis. Thus, while they were allowed for a time to coexist with the rest of German society, they were granted only the most marginal or menial jobs, restricted from marrying Aryans or even leading normal social lives, and sent eventually to forced-labor and concentration camps. More than 70,000 Germans were subjected to these restrictions and indignities, created and fostered by Hitler's morally bankrupt race laws; yet to this day, few personal accounts of their experiences exist. James Tent recounts how these men and women from all over Germany and from all walks of life struggled to survive in an increasingly hostile society, even as their Jewish relatives were disappearing into the East. It draws on extensive interviews with twenty survivors, many of whom were teenagers when Hitler came to power, to show how "half-Jews" coped with conditions on a day-to-day basis, and how the legacy of the hatred they suffered still lingers in their minds. Tent provides gripping stories of life beneath the boot heel of Nazi rule: a woman deemed unsuited for a career in nursing because the shape of her earlobes and breasts indicated she was not "racially suited," a man arrested for "race defilement" because he lived with an Aryan woman, and many others. Writing with a deep and abiding respect for his subjects, Tent shows how Nazi discrimination and persecution affected the lives of the Mischlinge beginning in 1933, and he tells how such treatment intensified through the later years of the war. In the Shadow of the Holocaust demonstrates the lengths to which the Nazis were willing to go in order to eradicate Jewish blood- a fanaticism that increased over time and even in the face of impending military defeat. These people mostly survived the Holocaust, yet they paid for their reassimilation into German society by remaining silent in the face of haunting memories. This book breaks that silence and is a testament to human endurance under the most trying circumstances."--BOOK JACKET.

CONTENTS: Innocents in classrooms -- Mischlinge need not apply -- Drawing the line -- The penultimate step : forced labor -- A time of silence.

782. Thomas, W. Hugh. *The Strange Death of Heinrich Himmler : A Forensic Investigation*. 1st U.S. ed. New York: St. Martin's Press, 2002. Originally published as: *SS-1*.
SUMMARY: "On May 22, 1945, in the immediate aftermath of World War II, the Allies celebrated the capture of the most important member of the Nazi hierarchy, Reichsführer Heinrich Himmler. The SS leader was arrested and interrogated but committed suicide in Allied custody by ingesting poison from a capsule concealed in his mouth. Then he was buried at a secret site on Luneberg Heath. But Himmler did not rest in peace, if Himmler it was who was buried there. Months later the British disinterred, reexamined, and cremated his body. Yet in 1946, MI6's most talented, if treacherous, agent, Kim Philby, was still not convinced that the story of Himmler's death made any sense at all. Philby realized that a man of Himmler's organizational genius, a plotter of great intricacy and sophistication who recognized Germany's inevitable defeat as early as 1943, was unlikely to have just blundered into the arms of the Allies. What really happened? Hugh Thomas set out to answer Philby's question and has uncovered a maze of corruption, high finance, political gambles, and international intrigue. The Strange Death of Heinrich Himmler unearths not just Himmler's grave, but reveals secrets that have long remained buried, and shadowy figures who would rather stay that way."--BOOK JACKET.

789. Traverso, Enzo. *The Origins of Nazi Violence*. Trans. by Janet Lloyd. New York: New Press : Distributed by W.W. Norton, 2003. Originally published as: *Violence nazie*.
SUMMARY: "In the half-century since the appearance of Hannah Arendt's seminal work *The Origins of Totalitarianism*, innumerable historians have detailed the history of the Nazi years. Enzo Traverso's brilliant synthesis, *The Origins of Nazi Violence*, maps the troubling genealogy of

the Nazi regime, situating the extermination camps at the terrible intersection of European modernity's industrialization of killing, dehumanization of death, and colonialist mindset. Challenging the conventional presentation of the Holocaust as an inexplicable anomaly, in which Nazi crimes have been excised from the trajectory of the Western world, Traverso navigates the intricate history of technical, cultural, and ideological antecedents to the horrors of the Holocaust. The uniqueness of Nazism, he argues, lay not in its opposition to the West, but in its terrifying blend of many forms of distinctively Western violence."--BOOK JACKET.

SUMMARY: "Between 1933 and 1938, Eric Voegelin published four books that brought him into increasingly open opposition to the Hitler regime in Germany. As a result, he was forced to leave Austria in 1938, narrowly escaping arrest by the Gestapo as he fled to Switzerland and later to the United States. Twenty years later, he was invited to Munich to become Director of the new Institute of Political Science at Ludwig-Maximilian University. In 1964, Voegelin gave a series of memorable lectures on what he considered "the central German experiential problem" of his time: Adolf Hitler's rise to power, the reasons for it, and its consequences for post-Nazi Germany. For Voegelin, these questions demanded a scrutiny of the mentality of individual Germans and of the order of German society during and after the Nazi period. Hitler and the Germans, published here for the first time, offers Voegelin's most extensive and detailed critique of the Hitler era."--BOOK JACKET.

808. von Lang, Jochen. *Top Nazi : SS General Karl Wolff : The Man between Hitler and Himmler*. Trans. by Mary Beth Friedrich. New York: Enigma Books, 2005. Originally published as: *Adjutant*.
SUMMARY: "Top Nazi publishes in English for the first time documents recently unearthed in the Russian archives. They show how Karl Wolff met secretly for seven days with Stalin's representative, V. Merkulov of the NKVD (secret police), behind German lines in the town of Mtsensk in February 1942. Most likely dispatched by Hitler himself, Wolff heard proposals for a cease-fire on the Eastern Front and a military alliance against the U.S. and Britain, as well as Stalin's promise to exterminate the Jews in the Soviet Union. Over 185 German divisions could then be moved west to fight the Allies in North Africa, with potentially catastrophic consequences. Stalin would also join the Axis at that point. The deal fell through. The document from the Russian archives describes statements and offers made by Wolff that directly contradict the pristine image of himself as a marginal figurehead that he so strenuously cultivated after the war. Karl Wolff steadfastly claimed ignorance of the Holocaust. After being spared at Nuremberg, he was found guilty by a German court in 1964 of ordering the transport of 300,000 Jews from the Warsaw Ghetto to Treblinka in 1943. Although found guilty of providing railway boxcars, he was quickly released due to poor health and spent the remainder of his life in comfortable retirement until his death in 1984."--BOOK JACKET.

SUMMARY: "You may not be familiar with the name Felix Kersten, but after reading The Devil's Doctor you will never forget it. Prepare to meet one of the most unlikely and little-known heroes in the fight against Nazi atrocities - a talented and very successful physical therapist who, under threat of harassment, was drawn into the corrupt power center of the Third Reich. Acclaimed historian and former OSS officer John Waller tells a tale of treachery compounded by moral depravity; of the failing loyalty of high-ranking Nazi zealots; and of one man's efforts in the face of grave personal danger to hasten the defeat of Hitler's Reich, thereby saving thousands of Nazi concentration-camp inmates condemned to die."--BOOK JACKET.
CALL NUMBER: DD247.H46 W35 2002
817. Walters, Guy. *Berlin Games : How Hitler Stole the Olympic Dream*. London: John Murray, 2006.
SUMMARY: "Behind the scenes, the Berlin Olympics were a crucible of the world's discord, a dress rehearsal of the horrors of the forthcoming conflict. Hitler had secretly determined that the Games would showcase Nazi prowess and, when they arrived in Berlin, the unwitting athletes found themselves to be helpless pawns in his sinister political game. For the first time Guy Walters reveals how it was not only the Nazis who corrupted the Games, but the Olympic officials themselves, not least Baron Pierre de Coubertin, the founder of the modern Olympics, who received a massive secret donation from the Nazis. From the remarkable tableau of the Games themselves, Walters stretches the story across a broad canvas, placing those two crucial weeks in the wider context of the 1930s. He brings alive a wide cast of characters and a complex political backdrop, and casts new light on a momentous yet little explored set piece of Nazi history."--BOOK JACKET.

Translated from the manuscript.; "Ein einzigartiges Zeitdokument wird nach mehr als sechzig Jahrender Öffentlichkeit zugänglich gemacht - die Aufzeichnungen eines jungen Mannes über seine Verfolgung durch die Nazis im deutsch besetzten Polen. Als Zwanzigjähriger sass Frederick Weinstein (Fryderyk Winnykamien) 1943 und 1944 in einem Keller in Warschau fest. Den Raum nicht zu verlassen und nicht gesehen zu werden war seine einzige Chance, der Judenverfolgung zu entkommen. In einer Atmosphäre ständiger Bedrohung, Einsamkeit, Nichtstun und vager Hoffnung auf eine Befreiung verfasste Weinstein einen ausführlichen Rückblick seiner Erlebnisse seit der Besetzung des Landes im September 1939. Detailliert, selbstkritisch und emotional schildert er den fortwährenden Kampf seiner Familie ums Überleben. Wenige Wochen nach seiner Ankunft im Sommer 1942 begannen dort die Massendeportationen der Juden in das Vernichtungslager Treblinka. Durch die Arbeit in einem Rüstungsbetrieb konnte Frederick Weinstein der Verschleppung von weit mehr als 200 000 Menschen binnen acht Wochen entkommen und floh erneut - in das Kellerversteck jenseits der Ghettomauern. Schonungslos beschreibt der jugendliche Autor in seinen Aufzeichnungen die eskalierende, den Betroffenen oftmals widersprüchlich erscheinende judenfeindliche Besatzungspolitik, die brutalen Exzesse

Einzelner, denen er als Zwangsarbeiter ausgesetzt ist, die grossen und kleinen Nutzniesser der Judenverfolgung, die Konflikte der Verfolgten untereinander und die Spannungen innerhalb seiner ganz auf sich selbst zurückgeworfenen Familie. Frederick Weinstein hat überlebt"

832. Wenig, Larry. *From Nazi Inferno to Soviet Hell*. Hoboken, N.J: KTAV Pub. House, 2000.
SUMMARY: "In 1939 Hitler and Stalin signed a non-aggression pact and secretly agreed to divide Poland. This event, which enabled Germany to invade Poland without fear of Soviet interference, and 15 days later had the Red Army attack Poland from the east, forms the historical background against which the tale told in *From Nazi Inferno to Soviet Hell* was played out. The story told in *From Nazi Inferno to Soviet Hell* turns the spotlight on an aspect of the World War II Jewish experience that will be unfamiliar to many readers, including historians and scholars. Its portrayal of the corruption, uncertainty, and constant danger of life under the Stalin regime is terrifying, yet a testimonial to the human spirit and man's ingenuity and will to survive."--BOOK JACKET.

835. Westermann, Edward B. *Hitler's Police Battalions : Enforcing Racial War in the East*. Modern War Studies. Lawrence: University Press of Kansas, 2005.
 SUMMARY: "Along with the SS and Gestapo, the Ordnungspolizei, or Uniformed Police, played a central role in Nazi genocide that until now has been generally neglected by historians of the war. To uncover the story of how the German national police were fashioned into a corps of political soldiers, Westermann reveals initiatives pursued before the war by Heinrich Himmler and Kurt Daluege to create a culture within the existing police forces that fostered anti-Semitism and anti-Communism as institutional norms. Challenging prevailing interpretations of German culture, Westermann draws on extensive archival research - including the testimony of former policemen - to illuminate this transformation and the callous organizational culture that emerged. Throughout, Westermann stresses the importance of ideological indoctrination and organizational initiatives within specific groups. It was the organizational culture of the Uniformed Police, he maintains, and not German culture in general that led these men to commit genocide. Hitler's Police Battalions provides the most complete and comprehensive study to date of this neglected branch of Himmler's SS and Police empire, and adds a new dimension to our understanding of the Holocaust and the war on the Eastern front."--BOOK JACKET.

839. Weyr, Thomas. *The Setting of the Pearl : Vienna Under Hitler*. New York: Oxford University Press, 2005.
 SUMMARY: "Here is an account of the debasement of one of Europe's great cities. Thomas Weyr shows how Hitler turned Vienna, a once vibrant city that was the cradle of modernism, into a third-rate Prussian provincial town. In this narrative, we meet Austrian traitors like Arthur Seyss-Inquart and mass murderers like Odilo Globocnik, proconsuls like Joseph Burckel, who hacked Austria into seven pieces, and Baldur von Schirach, who dreamed of making Vienna into a Danubian capital - and failed miserably. More painfully, Weyr chronicles the swift destruction of a deeply ingrained Jewish culture and the removal of the city's 200,000 Jews through murder, exile, and deportation. He further shows how Hitler throttled the spirit of what remained through changes in education, city government, cultural life, even the architectural form of the city. The book includes Weyr's own experiences as a child in Vienna under Nazi rule in 1938, along with those of his parents and friends, but the book is not simply a memoir; it is a full historical narrative that chillingly captures the spiritual and cultural ruin that Hitler inflicted on this once-great city."--BOOK JACKET.

842. Whitlock, Flint. *Given Up for Dead : American GI's in the Nazi Concentration Camp at Berga*. Cambridge, MA: Westview Press, 2005.
SUMMARY: "During World War II, prisoners of war were required by the Geneva convention to be treated according to established rules of warfare. For the most part, the Nazis followed the rules. But in late 1944, when a large number of Americans were taken prisoner during the Battle of the Bulge and elsewhere, their captors had different plans for those Americans who were Jewish or from some other "undesirable" ethnic or religious group. Instead of being incarcerated in regular prisoner-of-war camps, several hundred were separated from their fellow captives and sent to the brutal slave-labor camp at Berga-an-der-Elster in Germany. Until now, the story of what these men endured has been largely untold. *Given Up for Dead* chronicles the experience of Americans at Berga. Here is an incredible tale of survival against overwhelming odds, inhuman living and working conditions, and the imminent prospect of annihilation during a 300-kilometer death march designed to keep them out of the hands of the approaching Allies. That these men willed themselves to stay alive is an amazing testimony to the resiliency of the human spirit. Using the first-person accounts and definitive factual narrative, Flint Whitlock pays tribute to these brave men in telling their story, at last."--BOOK JACKET.

852. Wistrich, Robert S. *Hitler and the Holocaust*. Modern Library Chronicles ; 8. 2001 Modern Library ed. New York: Modern Library, 2001.
SUMMARY: "Hitler and the Holocaust is the product of one of the world's foremost authorities on the history of anti-Semitism and modern Jewry. Robert S. Wistrich begins by reckoning with Europe's long history of violence against the Jews, and how that tradition manifested itself in Central and Eastern Europe in the early twentieth century. He looks at the forces that shaped Hitler's belief in a "satanic Jewish power" that must be eradicated, and the process by which, once Hitler gained power, the Nazi regime tightened the noose around Germany's Jews. He deals with many key questions, such as when Hitler's plans for mass genocide were finalized, the relationship between the Holocaust and the Second World War, and the mechanisms of authority by which power - and guilt- flowed out from the Nazi inner circle to "ordinary Germans," and other Europeans. He explains the infernal workings of the death machine, the nature of Jewish and other resistance, and the tragic story of collaboration and indifference across Europe and America, and in the Church. Finally, Professor Wistrich discusses the abiding legacy of the Nazi Holocaust, and the lessons that must be drawn from it. A work of commanding authority and insight, Hitler and the Holocaust is an indelible contribution to the literature of history."--BOOK JACKET.

856. Wohlfromm, Hans-Jörg and Gisela Wohlfromm. *"Und Morgen Gibt Es Hitlerwetter!" : Alltägliches Und Kurioses Aus Dem Dritten Reich*. Frankfurt: Eichborn, 2006.

SUMMARY: "Um Geschichte zu verstehen, lohnt sich ein Blick auf die Details des Alltags. Das gilt auch für das Dritte Reich. Die Historiker Hans-Jörg und Gisela Wohlfromm haben erstmals Bekanntes, aber vor allem sehr viel Unbekanntes aus dieser Zeit in einer Sammlung von Zahlen, Fakten, Listen, Statistiken, Zeitungsausschnitten, Ereignissen, Geschichten etc. zusammengestellt und zum Teil kommentiert, die den Alltag im Nationalsozialismus auf ungewöhnliche Weise sichtbar macht. Man erfährt zum Beispiel, dass 'Mutter, erzähl von Hitler' ein beliebtes Buch für Frauen war; was es mit der Einführung der 'Eintopfsonntage' auf sich hat oder dass Rapid Wien 1941 Deutscher Fussballmeister wurde. Wann welche Länder in den Krieg gegen Deutschland traten; was Code-Wörter wie 'Einmal Lisa wieder' bei der Flugzeug-Nachtjagd bedeuteten; dass 'Kaiserwetter' damals 'Hitlerwetter' hiess und bekannte Marken wie Fanta oder Jägermeister im Dritten Reich entstanden. Die Autoren zitieren das Kindergedicht 'Zehn kleine Meckerlein', auf dessen Verbreitung Anklage wegen Hochverrats stand; schildern, welche Rebsorte nach dem Krieg entnazifiziert werden musste oder wie die persönlichen Reaktionen der Kriegsverbrecher waren, nachdem man ihnen einen Dokumentarfilm über Konzentrationslager vorgeführt hatte. Dieses Buch klärt auf über das Dritte Reich -- aber anders, als es üblich ist. Diese Sammlung von Details macht das Wahnhafte des Systems im Alltag deutlich und verändert den Blick auf das Ganze".

873. Zucker, Bat-Ami. *In Search of Refuge : Jews and US Consuls in Nazi Germany, 1933- 1941*. Parkes-Wiener Series on Jewish Studies. London ; Portland, OR: Vallentine Mitchell, 2001.
SUMMARY: "In Search of Refuge: Jews and US Consuls in Nazi Germany 1933-1941 examines how the consuls perceived, interpreted and administered immigration policy towards the refugees. The book explores the relationship of consuls with the State Department; giving examples of initiatives by consuls; instances of prejudice and showing methods by which consuls obstructed entry of refugees in ways which went beyond instructions and even defeated the object of instructions. However, it also examines some cases of consular initiatives to offer aid, such as by issuing protective letters."—BOOK JACKET.
