**ALALA AVIARYS 13 & 14 DOUBLE-WIDE
KEAUHOU BIRD CONSERVATION CENTER
VOLCANO, HAWAII
TAYLOR COCKERHAM AIA ARCHITECT
1994 - 2014**

Endangered birds are common in the Hawaii Archipelago. The Keauhou Bird Conservation Center is the vision of Dr. William Burnham of the Peregrine Fund, and Mr. Alan Lieberman and Mrs. Cindi Keuhler of the Zoological Society of San Diego for endangered forest song bird propagation and release. Construction was funded by numerous private gifts and the Congress of the United States of America. The land is leased from Bernice Pauahi Bishop Estate Kamehameha Schools.

During a 20 year project, 2 forest bird barns, a brooder/office building and 15 Alala single and double-wide aviaries were built.

Project Director: Mr. Alan Lieberman, Director Emeritus KBCC
Research Fellow for the San Diego Zoo Global
Institute for Conservation Research
Escondido, California

Architects: Mrs. Leslie Taylor Cockerham, AIA
Hilo, Hawaii
Mr. John Harvey Maxey, Architect
Boise, Idaho

General Contractor: Mr. David Ramler, President
Kawika General Contracting, Inc.
Hilo, Hawaii

Alumnae Biography

My practice of architecture continues with the support of my engineers and draftsman. I also teach at the Hawaii Community College in the AEC Program. East Hawaii has an abundance of modest projects built with modest materials so well-proportioned restraint is a key attribute for success. I express my gratitude and thankfulness to Washington University School of

Architecture for accepting me to the Graduate Program in 1979. My husband is a graduate of the School of Art. And as my folks tell me, "It doesn't matter where you are on the train as long as you are on the train." Thank you very much.
