

# Villa Soest

case study  
By Jina Kim

Location: Soest, Netherlands

**Architect:** Zecc Architecten

**Owner:** Individual

**Year of completion:** 2009

**Climate:** Marine West Coast Climate

**Material of interest:** Stone

**Application:** Exterior

**Properties of material:** Located on the sloped hill in the forest, the use of stone on the façade creates a strong dialog between the building and the surrounding natural landscape. Stony façade anchored the building to the ground, giving durability and sturdiness on its structure.
