

Herostrasse Office Building

case study
By Elia Magari

Location: Zurich, Switzerland

Architect: Max Dudler

Owner: Poyry Management Consulting

Year of completion: 2014

Climate: Marine West Coast Climate

Material of interest: stone slab

Application: Exterior facade

Properties of material: This engineered and manufactured stone has a matte finish which changes throughout the day based on perception. Also the facade has reveals which make it appear to be “carved out” thus emphasizing the horizontality of the structure.
