

# Mülimatt Sports Education and Training Centre

case study  
By Ali Ward

Location: Windisch, Switzerland

**Architect:** Studio Vacchini Architetti

**Owner:** NA

**Year of completion:** 2010

**Climate:** Koppen Climate Cfb

**Material of interest:** Precast Concrete

**Application:** Exterior

**Properties of material:** The exterior facade is made out of precast concrete, which also acts as a structure. The form allows for the building to be open, with a glass layer beneath the concrete form.
