

Kanagawa Institute of Technology Workshop

case study
By Elia Magari

Location: Kangawa, Japan

Architect: Junya Ishigami and Associates

Owner: Kanagawa Institute of Technology

Year of completion: 2013

Climate: Humid Subtropical Climate

Material of interest: glass

Application: façade and enclosure

Properties of material: The floor-to-ceiling glass makes the building appear weightless and elegant, and the open plan preserves the building's sense of transparency as the viewer's eye can shoot directly across the uninterrupted space.
