

# Chateau Cheval Blanc Winer

case study  
By Ziwen Wang

Location: Alise-Sainte-Reine, France

**Architect:** Christian de Portzamparc

**Owner:** Chateau Cheval Blanc

**Year of completion:** 2011

**Climate:** Maritime temperate climates

**Material of interest:** Concrete

**Application:** Exterior/Interior

**Properties of material:**

The geometry of the curved surfaces and their pre-cast concrete allow the natural light flowing to the ground, creating a unique atmosphere. The load-bearing walls and the large sculptures are also concrete.
