

# Abu Dhabi Financial Center Car Parks

case study  
By Hua Yinghua

Abu Dhabi, United Arab Emirates

**Architect:** Goettsch Partners, Inc.

**Owner:** Mubadala Real Estate & Infrastructure

**Year of completion:** 2011

**Climate:** Tropical and Subtropical Desert Climate

**Material of interest:** Glass

**Application:** facade

**Properties of material:** The facade of the car parks of the Abu Dhabi Financial Center is composed of 6,000 square meters of AMIRAN® Anti-Reflective Glass, which is a one or both side anti-reflective coated glass for a clear view inside and out both day and night. Its non-sensitive high-tech coating reduces reflections to less than 1% and allows up to 98% of the light to pass through uninhibited.
