Kuwait National Assembly Building

Location: Kuwait City, Kuwait

Architect: Jorn Utzon
Owner: Kuwait National Government
Year of completion: 1982
Climate: Tropical and Subtropical Desert Climate
Material of interest: Concrete
Application: Exterior and Interior

Properties of material: The concrete was cast in a manner to replicate sails billowing in the wind therefore creating unique rounded and curved forms. Precast forms enabled the building to encorporate both vernacular and new forms together within the same design and consequently creating a juxtaposition between traditional and modern architecture.
