

Brabant, Netherlands

**Architect:** Barcode Architects

**Owner:** N/A

**Year of completion:** 2017

**Climate:** Marine west coast climate

**Material of interest:** glass

**Application:** Exterior

**Properties of material:** The house comprises a simple elongated form, which maximises sun exposure for the two long facades. These glazed walls, which frame the building's main living spaces, folds inwards at the front and back, creating small pockets of shelter facing both sides of the garden.
