

Céline Flagship Store

case study
By Shijing Zhu

Location: Miami, Florida, United States

Architect: Valerio Olgiati

Owner: Celine

Year of completion: 2018

Climate: Tropical monsoon climate

Material of interest: Pinta Verde (Marble)

Application: Exterior and interior

Properties of material: A marble shell is laid over an existing two-storey structure. The facades, floors, walls, ceilings are entirely made of marble. The blue-green Pinta Verde from Brazil is exceptional and creates a wonderful atmosphere for Céline.
