

Marília Fit Restaurant

case study
By Shijing Zhu

Location: Minas Gerais, Brazil

Architect: David Guerra Arquitetura e Interior

Owner: N/A

Year of completion: 2018

Climate: Tropical wet and dry

Material of interest: Wood

Application: Exterior and interior

Properties of material: A structure composed by rectangular wooden boxes covers the walls, with different sizes and permeability, in a clear reference to a traditional public market's smells and flavors.
