

# The Enterprise Centre at The University of East Anglia

case study  
By Yanan Qian

Location: Norwich, UK

**Architect:** Architype

**Owner:** N/A

**Year of completion:** 2015

**Climate:** Cfb

**Material of interest:** straw

**Application:** Exterior

**Properties of material:** The plastered walls provide some thermal mass, compressive and ductile structural strength, and acceptable fire resistance as well as thermal resistance (insulation).
