

Bruder Klaus Field Chapel

case study
By Juan Gonzalez

Location: Mechernich, Germany

Architect: Peter Zumthor

Owner: N/A

Year of completion: 2007

Climate: Marine West Coast

Material of interest: Concrete

Application: Structure

Properties of material: The concrete was poured in layers of 50 cm on framework made of 112 tree trunks. When all of the concrete had set, the wood frame was set on fire until the concrete remained with a black tone and charred walls.
