BIOGRAPHY

Ursula is a founding partner of emerymcclure architecture and also serves as the A. Hays Town Professor in the School of Architecture at Louisiana State University. Presently, she serves as graduate coordinator and teaches studios in the Masters of Architecture program and seminar courses focusing on Louisiana culture and architecture. She studied liberal arts at Washington University in St. Louis, MO with a major in Architecture and a minor in History and received her M.Arch from the Graduate School of Architecture, Planning, and Preservation at Columbia University, NYC. Ursula continues to receive accolades for her innovative research and design work.

IOTA HOUSE | IOTA, LOUISIANA
ARCHITECT
SUMMER 2008

In a small town in the rice country of Louisiana, the Iota House is both rehabilitation and a modernization. The介入or lies somewhere between what is and what will be. It consists of 2 outbuildings (an outhouse and carport) that become part of the original structure with the aid of a wrap-around porch. little of our projects, the porch is integral to the solution. It satisfies the client's goals, serving as a slip joint between the new and the old, and in the end, harmonizes the scheme both internally and externally.
